14 Cars Smashed in Wreck Near Here

B&O Train Piled Up Near Fairview; Cause Of Wreck Being Sought

Baltimore & Ohio railroad police and inspectors today were searching for the cause of a spectacular train wreck that derailed 14 massive freight cars and tied up 11 others near the Fairview Rd. crossing miles south of here about 12:45 p. m. Wednesday.

At least 10 of the 14 derailed cars were "completely destroyed," officers said. The thundering crash caused an estimated \$35,000 worth of damage to the railroad equipment alone. Estimates of freight damage ranged from \$50,000 to \$150,000.

Trains probably will be able to go through the torn-out section by late tonight, Harold Wise, yardmaster here said. Meanwhile, traffic was being re-routed through Hamilton and Cincinnati and to Chillicothe.

No one was injured in the wreck. Jack D. Henson, B&O detective from Chillicothe, listed what he called the three most likely causes for the jackstraw pileup:

- (1) a wheel broke;
- (2) Something was on the track?
- (3) Heat expansion bent a rail out of shape.

"It might be something else," Henson said, "and we might never find out."

B&O section hands who witnessed the wreck from just below the Plainview Rd. crossing said they saw the train wobble for "quite a distance" before the mid-section of the 52 car train crashed into the peaceful pasture. They said they believed crew members in caboose knew the wreck was coming.

NEITHER of the two cabooses nor the doubleheader Diesel engine were upended. The cabooses, however, were among the cars held up.

WORKMEN on special wreck trains from Chillicothe and Dayton arrived Wednesday night to start the round-the-clock effort to clean up the debris. About a quarter mile of track will have to be relaid, officials said.

Seven of the smashed cars were tank cars, one was a flat, one a gondola and one a refrigerator car.

A load of canned peas in the refrigerator car "probably was ruined," it was said. One of two tank cars containing U. S. government-owned ethyl alcohol was leading badly.

Four other tank cars contained ethyl chloride. The fifth held soy bean oil. Farm tractors were loaded on the flat car and scrap metal was in the gondola.

The train, the "Springfield 94," was bound from Dayton to Chillicothe and the east coast. It had passed through Washington C. H. at 12:30 p. m. with 45 loaded and seven empty cars.

The 27 cars not wrecked or held up headed on East towards their destination shortly after the crack up.

Hoffa Trial Seen Nearing Jury Decision

WASHINGTON (AP)—Opposing attorneys were making final arguments to a federal court jury today in the bribery-conspiracy trial of James R. Hoffa, Midwest boss of the Teamsters Union.

U. S. Dist. Judge Burnita S. Matthews left open the question of whether the case would be submitted to the jury late today or Friday. Her decision presumably rested on whether defense and prosecuting attorneys use up all of their 2½ hours each.

Judge Matthews' instructions to the jury on legal points will follow the closing arguments.

Hoffa ended his testimony Wednesday insisting that he never knew that John C. Cheasty, New York lawyer-investigator, had a job with the Senate Rackets Committee.

Hoffa maintains he hired Cheasty as a teamsters lawyer, and not to steal racket committee secrets as the government charges. Cheasty, who says he agreed to go along with the alleged scheme but immediately let authorities in on it, was the government's key witness.

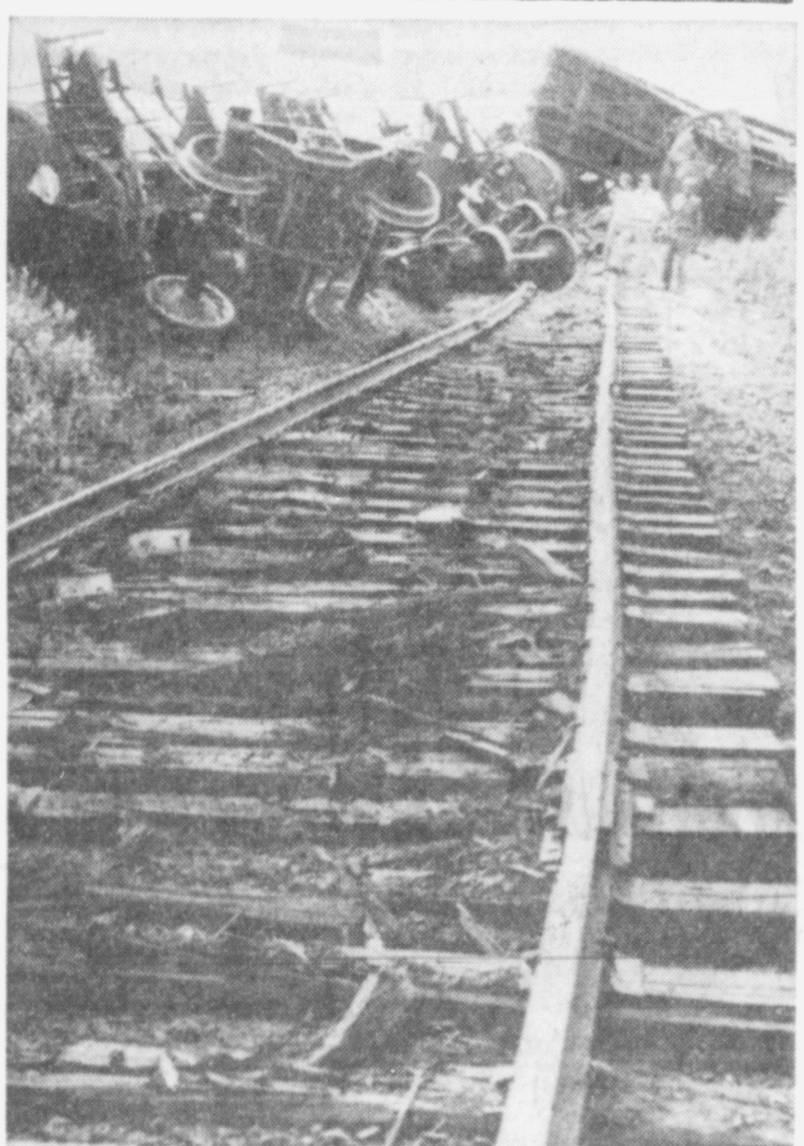

Hoffa and Hyman Fischbach, Miami attorney, are jointly accused of inducing Cheasty to get a job with the committee, then bribing him to feed them its secrets. Fischbach was granted a mistrial last week when his lawyer became ill and the trial continued against Hoffa.

'House Group Votes Federal Pay Hike

WASHINGTON (AP)—The House Civil Service Committee overrode administration objections today and voted for an 11 per cent, \$532 million pay raise for a million government workers.

The committee headed by Rep. Murray (D-Tenn.), acted by a reported vote of 14-10 shortly after hearing Robert E. Merriam, the assistant budget director, say such a raise would be inflationary.

The group had voted earlier for a 12½ per cent, \$320 million increase in the pay of some 518,000 postal workers.

Court Refuses To Order Return of John Trace

Judge Darrell R. Hottle Wednesday refused to grant Mrs. Beverly Clickner Walls' request that John R. Trace, former high school principal, be ordered arrested and brought back here to continue his deposition of testimony in the embezzlement case against Mrs. Walls.

The Highland County jurist, sitting by assignment after John P. Case of the Fayette County Court of Appeals stepped aside, overruled Mrs. Walls' motion on the ground that Trace had never been subpoenaed for the deposition.

His decision was filed Wednesday.

FBI Agent Fined For Failing To Hand Over Records

BOWLING GREEN, Ky. (AP)—Federal District Judge Mac Swinford Wednesday called an FBI agent's refusal to turn over his records to the court in an alleged fraud case "defiance of the worst kind," and fined the agent \$1,000.

Judge Swinford voiced his reluctance to fine agent Marcus Wallace, but said a recent Supreme Court decision relating to FBI records must be followed in the case.

The Supreme Court ruled June 3 that the FBI must make its files available in court cases.

Wallace said he refused to hand over the records on the advice of the attorney general's office in Washington. Swinford said, in view of that, he would wait until Oct. 18 to impose sentence. The judge gave the agent that amount of time to confer "again with your superiors."

4 Clinton Trial Defendants Given Freedom

Prosecution Rests Case; Defense Asks For Directed Verdict

KNOXVILLE, Tenn. (AP)—The government today dropped criminal contempt charges against 4 of the 15 defendants in the Clinton segregation trial.

U. S. Dist. Atty. John C. Crawford Jr. at the outset of today's session asked for dismissal of criminal contempt charges against Thomas Sanders, Chris Foust, J. B. Long and J. L. Coley.

"In my opinion the evidence is not sufficient to warrant conviction of these men," Crawford told U. S. Dist. Judge Robert L. Taylor. "Therefore, I move to dismiss the charges against them."

Judge Taylor agreed. Crawford then told the court the government rested its case in the nine-day-old trial.

Chief Defense Counsel Robert L. Dobbs, Memphis, immediately moved for directed verdict of acquittal for the 10 remaining Clinton area defendants.

Taylor merely nodded his head without committing himself as to what his decision would be. The statement setting forth reason for the defense motion for dismissal was dictated by Grover S. McLeod of Birmingham.

McLeod's statement asserted that the government had not shown evidence to support charges against the defendants.

The statement said, "It has not been shown" that the defendants had knowledge or notice of the final injunction issued by Taylor prohibiting interference with integration at the school.

The statement denied that they had entered into any agreement together to violate the injunction.

The government had indicted 14 Tennesseans and lanky, dark-haired John Kasper, Northern segregationist organizer, for criminal contempt.

It charges that they knowingly "acted in concert" to defy a federal injunction against interference (Please Turn to Page Twenty)

2 Girls Pool Skimpy Funds; One Is Voted 'Miss U. S.'

LONG BEACH, Calif. (AP)—A "go-for-broke" gamble in which two beautiful girls pooled their money to back one of them in the Miss Universe contest paid off today for lovely Leona Gage, 21, the new Miss Universe.

The tall, raven-haired beauty from Glen Burnie, Md., who came west with her 24-year-old cousin, a \$45 gown and high hopes, won the coveted crown Wednesday night and will now compete in the international phase of the contest.

The gamble that led to the thrill-packed climax was taken two months ago when Leona and her cousin, Barbara Gage, who make their home together, scraped together \$45 and went shopping for a gown so Leona could enter the Miss Maryland contest.

"I had \$35 and she had \$10," said Barbara, breathless with excitement as she watched the pearl-studded Miss U.S.A. crown being placed on the dark locks of her cousin. She added:

"We had made the money modeling and it was all we had. We found a dress marked down from \$90 to \$45, so we bought it."

Deputies Hurt In Emergency Run Crash

COLUMBUS, Ohio (AP)—An emergency run that may save the life of a day-old baby almost cost the lives of two Franklin County sheriff's deputies Wednesday night.

Siren and red light operating, the patrol car was passing a car and truck which had yielded the right of way on Ohio 16, six miles east of Pataskala. An on-coming car failed to give their cruiser room, the deputies said, and the cruiser skidded more than 300 feet in a ditch, catching fire as it came to a halt.

Deputy James Burchnell, 27, said he pulled his unconscious partner, Deputy Fred M. Miller, 25, from the wreckage. A passerby put out the fire with a hand extinguisher. Both deputies were reported in good condition at St. Anthony Hospital here.

They were returning from the home of Licking County Probate Judge Henry Ashcraft. He had signed a paper giving Domestic Relations Judge Clayton W. Rose consent to authorize an operation for the baby in Children's Hospital here. The parents live in Licking County, and apparently objected to the operation for religious reasons, Judge Ashcraft said.

A Licking County cruiser which escorted the Franklin County car delivered the authorization. Hospital attendants said the child was in fair condition after the operation, the nature of which was not disclosed.

Licking County deputies charged Jess Montgomery, about 50, Rt. 2, Nashport, with failing to yield to an emergency vehicle.

Measure Seen Confirmed to Voting Law

Anderson-Aiken View Expected To Gain Majority Support

WASHINGTON (AP)—Supporters of the administration's civil rights bill fought today against mounting Senate sentiment to confine the measure's terms to the protection of voting rights.

An influential senator who asked not to be quoted by name said leadership polls indicate a majority of the Senate now favors an amendment by Senators Anderson (D-NM) and Aiken (R-Vt) to narrow the bill's scope.

Anderson and Aiken have proposed eliminating a section which would authorize the attorney general to seek injunctions to enforce all civil rights, including desegregation of schools.

If the amendment were adopted, the proposed authority of the attorney general to intervene would be limited to cases involving voting rights.

Sen. Knowland (R-Calif.) said he believes the vote on the amendment "will be close but at this point I don't believe the section would be stricken from the bill."

AS AN INDICATION he wasn't certain of any such results, however, Knowland joined with Sen. Humphrey (D-Minn.) Wednesday in a move to chip away one portion of the controversial section.

They offered an amendment to repeal a post-Civil War reconstruction law authorizing the use of federal troops to enforce court orders. This old law had been linked in the bill to the proposed new authority for the attorney general to help enforce all civil rights.

Ag Agency To Tighten Soil Bank

WASHINGTON (AP)—The Agriculture Department has settled on the general outlines of tightened production control measures under the 1958 version of the soil bank land retirement program.

The agency is awaiting final congressional action on its appropriation bill before announcing the new program. This bill carries authorization for continuation of the major phase of the Soil Bank through 1958. It needs only Senate approval of a House-Senate compromise version.

The new controls would apply only to farms assigned planting allotments for wheat, corn, rice, cotton or tobacco or a combination of those crops. The Soil Bank offers payments to farm operators who underplant their allotments.

The department would set up a soil bank base acreage for such farms. This base acreage would be the average of the amount of land devoted to cultivated or cash crops during the past two years.

To be eligible for participation in the Soil Bank and its subsidy payments, a farmer would have to reduce his total harvested acreage by the amount of land he agreed to put in the soil bank.

He could no longer do what some have done heretofore—that is, take land out of wheat, cotton, rice, corn or tobacco, but put into production other acres for growing alternative crops.

day with the Clerk of the Common Pleas Court here.

Judge Hottle also pointed out in his decision that law provides the official before whom the deposition is being given shall issue such a writ for the return of the person wanted for a deposition. He also pointed out that Prosecutor Rollo Marchant had not requested a writ for the return of Trace, who was making the deposition at his request.

Judge Hottle also indicated that the expense of returning Trace probably would have to be borne by the defendant, Mrs. Walls.

Trace, principal of Washington C. H. High School during part of the time when Mrs. Walls is alleged to have embezzled \$9,874 from the activities fund she handled as clerk in the office, left the city June 30 or July 1 after giving his deposition for two days (June 27 and 28) and has not been seen since then.

HE HAD resigned as principal to take a position of director of education on Guam. He had said he planned to leave for the Pacific island July 1 and the presumption is that he left at that time and is now on Guam.

After he had given his deposition for two days, Mrs. Walls filed suit for \$100,000 against Trace for defamation of character. When notified of that action, Trace collapsed in the Downtown Restaurant and was taken to Memorial Hospital. He was released the following day and has not been seen since.

A week ago, Mrs. Walls filed another suit against Trace; this one asked seizure of his property, 713 Dayton Ave. No action has been taken on it.

Mrs. Walls was originally slated to go on trial for embezzlement in Common Pleas Court here June 3, but the trial date was postponed and no new one set.

WASHINGTON (AP)—The Agriculture Department has settled on the general outlines of tightened production control measures under the 1958 version of the soil bank land retirement program.

The agency is awaiting final congressional action on its appropriation bill before announcing the new program. This bill carries authorization for continuation of the major phase of the Soil Bank through 1958. It needs only Senate approval of a House-Senate compromise version.

The new controls would apply only to farms assigned planting allotments for wheat, corn, rice, cotton or tobacco or a combination of those crops. The Soil Bank offers payments to farm operators who underplant their allotments.

The department would set up a soil bank base acreage for such farms. This base acreage would be the average of the amount of land devoted to cultivated or cash crops during the past two years.

To be eligible for participation in the Soil Bank and its subsidy payments, a farmer would have to reduce his total harvested acreage by the amount of land he agreed to put in the soil bank.

He could no longer do what some have done heretofore—that is, take land out of wheat, cotton, rice, corn or tobacco, but put into production other acres for growing alternative crops.

Warren Boy, 6, Killed by Cancer

WARREN (AP)—Six-year-old Chuckie Brewer has lost his battle with cancer.

The son of Mr. and Mrs. Charles Brewer died Wednesday at a hospital where he had been confined for many months.

Chuckie received hundreds of cards and gifts on his birthday last April, including many from Canada and other countries.

Although never told of the seriousness of his illness, the child told his parents he knew he was "going away" and said he was going on a "vacation to Heaven to see Jesus."

What Our Economic Forecasters Are Saying

Business people and others who are watching and studying the economic trends and various industrial conditions, seem to disagree to some extent on what may happen during the next 18 months to commercial interests and to the ability of consumers to keep up their present rate of buying.

On the whole, most of those given to predictions seem to lean toward an optimistic outlook, at least for the remainder of 1957 and through 1958.

In talking here in Fayette County with representatives of many commercial, industrial and financial enterprises, the words "cautious optimism" creep into most conversations.

"Oh, for an electronic analyzer of cross currents, a precipitator of knowledge out of complexity!" This plaintive wish was voiced recently by J. A. Livingston, the widely syndicated writer on business and financial affairs. It comes from the fact that there are opposed and contrary trends in the American economy today that make forecasting even in the near future a delicate and risky undertaking.

For instance, the U. S. Treasury has found it necessary to pay an interest rate approaching 4 percent—and some treasury bonds are now quoted at 85 cents on the dollar. There has been a drop in factory workers' pay, because of a decline in hours worked weekly, and the Federal Reserve Index of production slipped 4 points between December and May. Do such developments, Mr. Livingston asks, indicate that "this is the beginning of the end of the long, long boom?"

Then he cites other facts, pointing in a very different direction. Some companies report major sales gains this year, and personal incomes have been rising. So another question arises: "Is this a portent of a consumer-spending splurge later in the year?"

His own view is optimistic—that "the

country is on the threshold of another upsurge in consumer spending; that the two-year drop in housing and automobile sales will come to an end this year and forerun a rise in 1958; that stocks are buoyed by business prospects."

Other authorities also find plenty of "cross currents" and differences to debate about. For instance, in a recent talk before a meeting of the National Citizens Committee to Curb Inflation, Senator Byrd of Virginia said that "inflation is threatening our national life." The senator, who is one of the strongest advocates of economy in Congress, blames inflationary forces principally on government fiscal policies. Yet on the same program, Dr. Edwin G. Nourse, who was the top government economist in the Truman Administration, took another view. He said that inflation is primarily to be blamed on labor, business and the farmers, rather than government.

These confusions to one side, what can we expect in the coming business picture? One magazine with a good record of forecasting in the past, has presented its idea of the outlook for the next 18 months. According to this, we will have another "best year ever" in 1957 and there will be a further upturn in 1958. Specifically, it believes personal incomes will increase by \$15 billion a year, consumer spending will be up, home building will show gradual recovery, and that inventories, now shrinking, will expand again next year. It also anticipates that prices will continue to rise, but at a slower rate than in 1956, and that the budget will show a surplus.

It should be added that some other respected forecasters are not so certain. As the old carnival shell-and-pea game spellers used to say, "You pays your money and you takes your choice." That is true in principle of economic forecasts.

You Can Make Life 'Endless'

By Hal Boyle

NEW YORK (AP)—One of the great goals of science today is to make man live longer.

Rare indeed does a scientist such as Enrico Greppi of Italy arise to sound a note of caution to these would-be seekers after eternal life.

Addressing an international convention in Rome on the problems of gerontology, Greppi said:

"Old age is a fate we must accept. We gerontologists (specialists on old age) must not be asked to bring along a theory on how to achieve new youth. It would be undignified and morally wrong."

There is great common sense in this observation. And to tell the truth, science, for all its victories in enabling man to live out his normal span, has done little really to extend that span.

There may come a time when some magic pep pills will enable us to run a four-minute mile at the age of 100, suffer the pangs of a new-found puppy love at 150, and retain some kind of wheezy breath in us until we are 499.

But inevitably, be it at 70 or 570, the pep pills will wear out, and so will we. Then we shall die, as all before us have done, foolishly hoping for an impossi-

ble fountain of youth.

Actually, when in our right senses, most of us calmly accept death as a fact of life, and realize that after a fullness of years it comes as a releasing boon, not a punishment.

But, for those who egotistically aspire to live forever, is there no answer? Why, of course there is.

The trick is for them to live so that life seems like it is going to go on forever. After all, as we know, age and time are really only relative. We are as young as we feel; a moment or a day or a year . . . they can seem long or short, depending on how we feel.

Here are a few tips on how to make your life seem endless.

1. Marry a woman who prides herself in never getting anywhere on time. Every night you take her out, as you sit on the sofa waiting while she dresses, you can live several lifetimes.

2. Don't take a job that is fresh, exciting or challenging. Pick one that is dull, routine and safe. The deeper in a rut you get, the longer it will take every day to crawl by.

3. Borrow money. Buy everything on the installment plan. Remember, a man in debt can't afford to die.

4. Avoid friends, make all the enemies you can. Friends have a habit of dying and leaving you mournful. But enemies spur you on with a desire to outlive them.

5. Engage in all the lawsuits you can. A man who is always suing everybody is looking for justice, and you know how long it takes to get justice in this world.

6. Be afraid of everything you can. Every minute of fear seems like an eternity. The brave man dies but once. Be a coward and you can live through a thousand deaths.

7. Do something wrong every day to build up your sense of guilt. There's nothing like a guilty feeling to make each day wear longer.

8. Avoid joy, seek boredom. Time always weighs heaviest with the bored, but a guy having fun is so busy he hardly realizes he's living.

Anyone who conscientiously follows these rules is bound to come as close to a feeling of personal immortality as human nature allows. He may not live forever, but he will have the feeling his dreary existence is endless, and his life will seem 10 times as long as life does to the fellow who fritters it away enjoying himself.

virtue the virtues of an actress on one page and to have her described in terms originating with Havelock Ellis or Sigmund Freud on the page opposite. That is just very bad business.

Harrison has shown unusual capacity as a magazine publisher and may I suggest that he turn from a publication that has made him rich but has no other value to something really challenging and worthwhile. For instance, the United States has no outstanding popular literary magazine for adult males such as are published in every other country and which I have to import to keep myself properly literate. It would take genius to make such a magazine pay in the United States, although some universities publish quarterlies which are very good and provide food for thought. They are, of course, not jazzed up, nor are they printed in pink ink on blue paper.

My teen-age friends to whom I showed such a quarterly said that they are very dull and that anything that has footnotes shows that the author has no confidence in himself and has to be bolstered up by quotations. However, I have also seen these same teenagers reading scientific magazines. That is because science has become a vogue since the A-bomb was discovered, which proved that Jack Armstrong, the all-American boy, or some other celestial hero was right. Besides, science pays off, while Milton and Keats do not. Maybe a clever publisher, like Robert Harrison, who could do so well with articles about nobodies might do even better with articles of permanent value. Surely, I do not need to read "Confidential" more than once.

Therefore the charge that the motion picture industry is trying to get this magazine seems to me far-fetched, particularly as this industry has permitted widespread violation of its moral code and of its anti-communist platform. It has recently permitted such pictures as ought to be intolerable in a moral society.

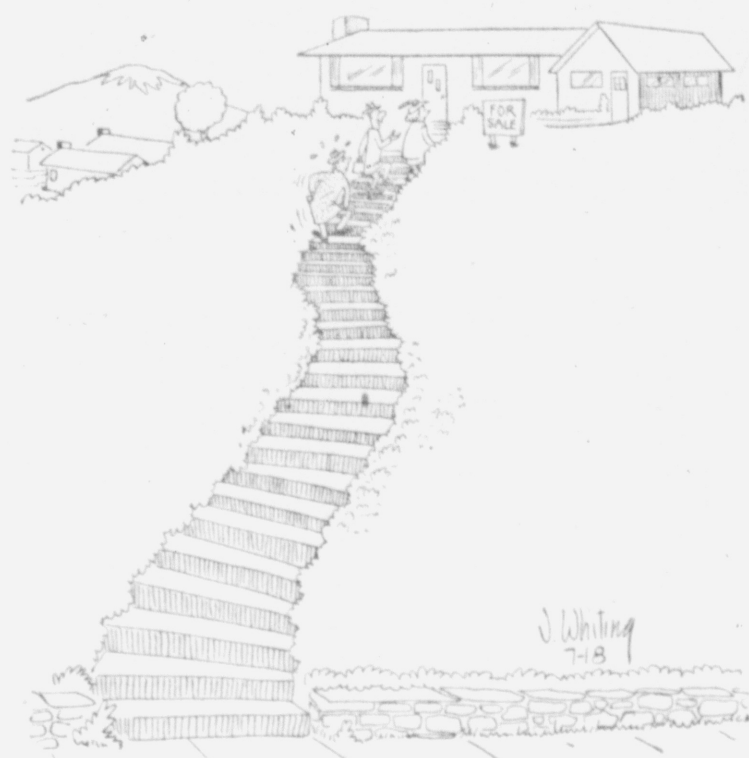

Harrison complains that the motion picture industry, in effect, buys the American press by advertising. In return, the newspapers build up the stars, giving them a good name when really they should be portrayed as very wicked, indeed. There are some of us who feel that the newspapers do give too much space to movie personalities, pictured usually in attire unsuitable for walking up or down Fifth Avenue. But Harrison should not call the pulchritudinous his own magazine specializes in the notorious.

I do not believe that the motion picture industry avoids giving this magazine advertisements as punishment for printing what Harrison calls "the truth." It is rather that they do not think it will help their box office to advertise the virtues of an actress on one page and to have her described in terms originating with Havelock Ellis or Sigmund Freud on the page opposite. That is just very bad business.

Painful Plantar Warts A Problem In Summer

By HERMAN N. BUNDESEN, M.D.

WITH pleasant summer weather at hand, plantar warts will become more of a problem than ever.

Like the more common ailment of athlete's foot, plantar warts frequently are contracted in public showers and locker rooms. As the summer sports activities increase, so do foot troubles.

Virus Infection

Plantar warts, apparently caused by a virus infection, occur most often on the ball of the foot.

The symptoms, of course, vary. Minor cases may give the feeling that there is a pebble in your shoe, while the more serious attacks make walking virtually impossible.

Not only are they the most painful type of wart, they usually are the most difficult to treat. They are often obscured by surrounding callosities and occasionally a biopsy is needed to detect them.

Doctor's Help Needed

Don't try to treat these warts yourself. As a rule, you will need the help of a doctor if you want to get rid of them permanently.

Probably the easiest method of getting rid of plantar warts is by X-ray. However, X-ray therapy will cure only about 50 to 75 per cent of the cases.

If X-ray fails, your doctor will probably pare down the callus and wart, stopping before bleeding occurs, and then apply varic acid and medications. He can do it in his office and you probably won't even miss a day's work.

Several Treatments

Anywhere from three to seven treatments may be required before the wart is completely removed. During the treatment, you will have to avoid vigorous exercise and swimming.

Whatever treatment your doctor finally settles upon, do not think you can do as good a job by yourself. Many persons indiscriminately employ acids, frequent parings or a callus file in an effort to remove the offender. Do not do it. Most likely you will only make things worse.

QUESTION AND ANSWER

Mrs. M. L.: I am developing a patchy baldness on my head. Will my hair ever grow?

Answer: It is possible that you are suffering from a type of baldness known as alopecia areata. Many times the hair grows back by itself in this type of disease.

You should consult a skin specialist for treatment, however.

Charlie Jones tells of a ladies' hat shop in Wichita where the salesgirls sell flossy millinery from nine to five to the town's elite—then sit around laughing themselves sick until six.

Remember the German comedians on the Keith-Albee circuit, whose patter went like this:

Farmer Production Costs Up 5 Pct.

WASHINGTON (AP)—Prices farmers paid for all production items averaged 5 per cent higher during the first half of this year than a year earlier.

Reporting this, the Agriculture Department said prices farmers received for their products during this same period averaged 3 per cent higher than a year earlier.

The department also reported that farmers stored 14 per cent of last year's corn crop under government price support loans. A final report showed the amount was 475 million bushels, compares with 420 million the previous year.

New Idle Pay Claims Decline

COLUMBUS (AP)—New claims for unemployment compensation showed a decrease, and continuing claims an increase for the week ended July 13, the Ohio Bureau reported.

New claims totaled 9,115 compared to 10,125 for the week ended July 6, and continuing claims 55,898 compared to 54,263, the bureau reported. The weekly average of new claims filed in July of last year was 8,235 and that of continuing claims 48,111.

Ohio Turnpike Income Well Ahead of 1956
CLEVELAND (AP)—The Ohio Turnpike's income during the first six months of 1957 totaled 38,132,929, more than 32 million higher than for the first half of last year. The Turnpike Commission reported that receipts for June were 32,157,559, up 3600,000 from 1956. A total of 1,008,538 passenger cars used the road during the month.

What of Obscene Literature?

By George Sokolsky

I have received from the publisher of "Confidential" magazine, a circular entitled "Hollywood vs. Confidential." It is a lengthy document in the course of which the publisher tries to establish that the state of California is falsely accusing his magazine of publishing indecent and obscene literature and other evils.

The publisher also sent me, free of charge, a copy of his opus which I read to no advantage. He apparently is able to collect information about rather insignificant personalities associated with the amusement industry. He must have a reporter in every bedroom and a microphone under every bed. How else could he have such detailed data about what — as he calls them, boys and girls — many passed 50, as I discovered — do in the privacy of their apartments? Those whom I have known in these arts, actors, motion picture actors, television and radio actors, singers, dancers and such live about the same kind of lives as other people. I compare the life of my boyhood friend, Eddie Cantor, with the bawdiest I read in this magazine and, of course, I can only con-

clude that this publisher specializes in black sheep.

One charge that is made is that the motion picture industry is out to get "Confidential." Why would they? Robert Harrison claims that he sells 3,000,000 copies of each issue. He whets the curiosity of those who like to read about the wickedness of living persons who might be seen in motion pictures. One need not go to Boccaccio or Margaret of Navarre for bad stories or even to read such novels as Fielding's "Tom Jones" or Zola's "Nana" for such stuff. It is possible in this magazine to read about current living persons.

Therefore the charge that the motion picture industry is trying to get this magazine seems to me far-fetched, particularly as this industry has permitted widespread violation of its moral code and of its anti-communist platform. It has recently permitted such pictures as ought to be intolerable in a moral society.

Harrison complains that the motion picture industry, in effect, buys the American press by advertising. The trick is for them to live so that life seems like it is going to go on forever. After all, as we know, age and time are really only relative. We are as young as we feel; a moment or a day or a year . . . they can seem long or short, depending on how we feel.

Here are a few tips on how to make your life seem endless.

1. Marry a woman who prides herself in never getting anywhere on time. Every night you take her out, as you sit on the sofa waiting while she dresses, you can live several lifetimes.

2. Don't take a job that is fresh, exciting or challenging. Pick one that is dull, routine and safe. The deeper in a rut you get, the longer it will take every day to crawl by.

3. Borrow money. Buy everything on the installment plan. Remember, a man in debt can't afford to die.

4. Avoid friends, make all the enemies you can. Friends have a habit of dying and leaving you mournful. But enemies spur you on with a desire to outlive them.

5. Engage in all the lawsuits you can. A man who is always suing everybody is looking for justice, and you know how long it takes to get justice in this world.

6. Be afraid of everything you can. Every minute of fear seems like an eternity. The brave man dies but once. Be a coward and you can live through a thousand deaths.

7. Do something wrong every day to build up your sense of guilt. There's nothing like a guilty feeling to make each day wear longer.

8. Avoid joy, seek boredom. Time always weighs heaviest with the bored, but a guy having fun is so busy he hardly realizes he's living.

Anyone who conscientiously follows these rules is bound to come as close to a feeling of personal immortality as human nature allows. He may not live forever, but he will have the feeling his dreary existence is endless, and his life will seem 10 times as long as life does to the fellow who fritters it away enjoying himself.

What of Obscene Literature?

By George Sokolsky

I have received from the publisher of "Confidential" magazine, a circular entitled "Hollywood vs. Confidential." It is a lengthy document in the course of which the publisher tries to establish that the state of California is falsely accusing his magazine of publishing indecent and obscene literature and other evils.

The publisher also sent me, free of charge, a copy of his opus which I read to no advantage. He apparently is able to collect information about rather insignificant personalities, associations with the amusement industries. He must have a reporter in every bedroom and a microphone under every bed. How else could he have such detailed data about what, as he calls them, boys and girls—many passed 50, as I discovered—do in the privacy of their apartments? Those whom I have known in these arts, actors, motion picture actors, television and radio actors, singers, dancers and such live about the same kind of lives as other people. I compare the life of my boyhood friend, Eddie Cantor, with the barnyard drive I read in this magazine and, of course, I can only con-

clude that this publisher specializes in black sheep.

One charge that is made is that the motion picture industry is out to get "Confidential." Why would they? Robert Harrison claims that he sells 3,000,000 copies of each issue. He whets the curiosity of those who like to read about the wickedness of living persons who might be seen in motion pictures. One need not go to Boccaccio or Margaret of Navarre for bad stories or even to read such novels as Fielding's "Tom Jones" or Zola's "Nana" for such stuff. It is possible in this magazine to read about current living persons.

Therefore the charge that the motion picture industry is trying to get this magazine seems to me far-fetched, particularly as this industry has permitted widespread violation of its moral code and of its anti-communist platform. It has recently permitted such pictures as ought to be intolerable in a moral society.

Harrison complains that the motion picture industry, in effect, buys the American press by advertising. In return, the newspapers build up the stars, giving them a good name when really they should be portrayed as very wicked, indeed. There are some of us who feel that the newspapers do give too much space to movie personalities, pictured usually in attire unsuitable for walking up or down Fifth Avenue. But Harrison should not call the police. His own magazine specializes in the notorious.

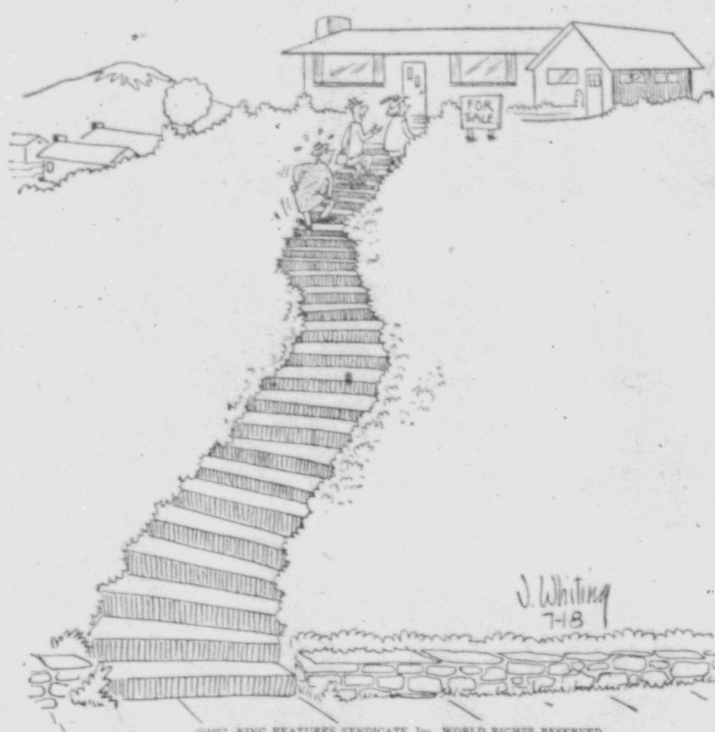

I do not believe that the motion picture industry avoids giving this magazine advertisements as punishment for printing what Harrison calls "the truth." It is rather that they do not think it will help their box office to ad-

vertise the virtues of an actress on one page and to have her described in terms originating with Havelock Ellis or Sigmund Freud on the page opposite. That is just very bad business.

Harrison has shown unusual capacity as a magazine publisher and may I suggest that he turn from a publication that has made him rich but has no other value to something really challenging and worthwhile. For instance, the United States has no outstanding popular literary magazine for adult males such as are published in every other country and which I have to import to keep myself properly literate. It would take genius to make such a magazine pay in the United States, although some universities publish quarterlies which are very good and provide food for thought. They are, of course, not jazzed up, nor are they printed in pink ink on blue paper.

My teen-age friends to whom I showed such a quarterly said that they are very dull and that anything that has footnotes shows that the author has no confidence in himself and has to be bolstered up by quotations. However, I have also seen these same teenagers reading scientific magazines. That is because science has become a vogue since the A-bomb was discovered, which proved that Jack Armstrong, the all-American boy, or some other cereal hero was right. Besides, science pays off, while Milton and Keats do not. Maybe a clever publisher, like Robert Harrison, who could do so well with articles about nobodies might do even better with articles of permanent value. Surely, I do not need to read "Confidential" more than once.

Painful Plantar Warts A Problem In Summer

By HERMAN N. BUNDESEN, M.D.

WITH pleasant summer weather at hand, plantar warts become more of a problem than ever.

Like the more common ailment of athlete's foot, plantar warts frequently are contracted in your public shower and locker rooms. As golfing, softball and other summer sports activities increase, so do foot troubles.

Virus Infection
Plantar warts, apparently caused by a virus infection, occur most often on the ball of the foot.

The symptoms, of course, vary. Minor cases may give the feeling that there is a pebble in your shoe, while the more serious attacks make walking virtually impossible.

Not only are they the most painful type of wart, they usually are the most difficult to treat. They are often obscured by surrounding callouses and occasionally a biopsy is needed to detect them.

Doctor's Help Needed

Don't try to treat these warts yourself. As a rule, you will need the help of a doctor if you want to get rid of them permanently.

Probably the easiest method of getting rid of plantar warts is by X-ray. However, X-ray therapy

will cure only about 50 to 75 per cent of the cases.

If X-ray fails, your doctor will probably pare down the callus and wart, stopping before bleeding occurs, and then apply various acids and medications. He can do it in his office and you probably won't even miss a day's work.

Several Treatments

Anywhere from three to seven treatments may be required before the wart is completely removed. During the treatment, you will have to avoid vigorous exercise and swimming.

Whatever treatment your doctor finally settles upon, do not think you can do as good a job by yourself. Many persons indiscriminately employ acids, frequent parings or a callus file in an effort to remove the offender. Do not do it. Most likely you will only make things worse.

QUESTION AND ANSWER

Mrs. M. L.: I am developing a patchy baldness on my head. Will my hair ever grow?

Answer: It is possible that you are suffering from a type of baldness known as alopecia areata. Many times the hair grows back by itself in this type of disease. You should consult a skin specialist for treatment, however.

Try and Stop Me

By BENNETT CERF

"I CAN'T FIGURE you out," a housewife told her husband angrily. "Monday night you liked beans, Tuesday night you liked beans, Wednesday night you liked beans, now all of a sudden, on Thursday night, you DON'T like beans!"

Charlie Jones tells of a ladies' hat shop in Wichita where the salesgirls sell flossy millinery from nine to five to the town's elite—then sit around laughing themselves sick until six.

Remember the German comedians on the Keith-Albee circuit, whose patter went like this:

Schultz: Haf you der talcum powder?
Schmidt: Mennen's?
Schultz: No, Vimmen's.
Schmidt: Scented?
Schultz: No, I'll take it vit me.

Farmer Production Costs Up 5 Pct.

WASHINGTON (AP)—Prices farmers paid for all production items averaged 5 per cent higher during the first half of this year than a year earlier.

Reporting this, the Agriculture Department said prices farmers received for their products during this same period averaged 3 per cent higher than a year earlier.

The department also reported that farmers stored 14 per cent of last year's corn crop under government price support loans. A final report showed the amount was 475 million bushels, compares with 420 million the previous year.

New Idle Pay Claims Decline

COLUMBUS (AP)—New claims for unemployment compensation showed a decrease, and continuing claims an increase for the week ended July 13, the Ohio Bureau of Unemployment Compensation reports.

New claims totaled 9,115 compared to 10,125 for the week ended July 6, and continuing claims 55,898 compared to 54,263, the bureau reported. The weekly average of new claims filed in July of last year was 8,235 and that of continuing claims 48,111.

Ohio Turnpike Income Well Ahead of 1956

CLEVELAND (AP)—The Ohio Turnpike's income during the first six months of 1957 totaled 38,132,929, more than 32 million higher than for the first half of last year. The Turnpike Commission reported that receipts for June were 32,157,559, up 3600,000 from 1956. A total of 1,008,538 passenger cars used the road during the month.

Posthumous

BOONE, Iowa (AP)—In October, 1918, during the Meuse-Argonne battle in France, Elmer E. Strandberg was wounded in action. He died Sept. 1, 1956. A few days ago, a Purple Heart came for him, 39 years late.

Run on Gold Being Feared In Some Areas

America's Fort Knox, Foreign Holdings Studied by Economists

By SAM DAWSON
NEW YORK (AP)—A run on Fort Knox is a bogeyman today to those who worry about the growing amount of foreign holdings of dollars and American securities. Under our gold law, American citizens cannot ask gold for their paper dollars or hold gold except as jewelry or for designated industrial purposes. But the law permits the central banks of other nations to turn their dollars in for gold at will.

The U. S. Treasury admits that theoretically — but only theoretically — foreigners could turn American investments into dollars and deposit them with foreign central banks. Then, still theoretically, all these banks could demand gold in exchange for dollars.

Such a run on Fort Knox could bring our gold holdings below the 12 billion dollars worth the Treasury legally must keep to back some 47 billion dollars in Federal reserve notes and deposits.

The Treasury says this cannot happen in practice because:
1. If any worldwide monetary and economic upheaval should start such a run, the United States would declare a moratorium on gold payments and go on keeping the metal right there in Fort Knox;

2. As long as the U.S. dollar is so respected everywhere, most foreigners prefer to have dollars rather than gold;

3. They need to have dollars to go on with their every day world trade transactions, just as a businessman here must have a healthy sum in the bank to go on with his daily transactions.

The U.S. gold situation is this: The Treasury has stored 22½ billion dollars worth of it. That is 10½ billion more than needed as legal backing for our currency.

Central banks of other lands have from eight to nine billion U.S. dollars available to them.

Dollar credits of individual foreigners are variously estimated at from 5½ to 7 billion. Individuals can't get gold for these dollar credits from our Treasury, any more than you can. But if they could sell these investments

Market Hog Show at Fair Here Backed by Business Interests

This year will be the second for the market hog show and sale at the Fayette County Fair.

It is a joint project sponsored by the allied business interests of the hog industry, the Fair, the various livestock buyers of Fayette and adjoining counties, Baltimore & Ohio Railroad and the Fayette County Pork Producers Assn. Last year it drew considerably interest and with added educational features this year, is expected to be one of the highlights of the swine program at the Fair.

The project was instituted as a part of the overall program of swine improvement in the county by the Pork Producers Association. Entries indicate that the show will be two or three times greater than last year. This is an indication of the interest that the swine producers are taking here in the county.

Showing will be done in three classes: singles, pen of three and pen of ten.

THROUGH the cooperation of business interests closely allied with the swine industry here in the county, nearly \$300 has been donated for prizes. The Swine Assn. expressed appreciation of this cooperation by 51.¢ ms and individuals.

In addition, trophies are being given by the First National Bank, to their central banks, these would then have from 13½ to 16 billion in dollar holdings.

Either the low or the high figure would be more than we could pay out in gold on demand without dropping our currency backing below the legal amount.

That is the theoretical picture. Bankers here agree with the Treasury that nothing could be less likely. They cite the same points the Treasury does, and add some more.

The stability of our government, compared with that of some others, leads many foreigners to want to keep their money here — just in case.

And American investments abroad far outstrip those of foreign investments here.

Simultaneous Phone Broadcasts Given OK

COLUMBUS (AP)—Ohio radio and television stations now are permitted to broadcast telephone conversations as quickly as they are received under an utilities commission order.

Previously, telephone calls were recorded and broadcast later. Wednesday the commission permitted Ohio Bell Telephone Co. to change its regulations to permit the simultaneous broadcast, provided the beep that lets the callers know their conversations is being recorded is retained.

Entries indicate that the show will be two or three times greater than last year. This is an indication of the interest that the swine producers are taking here in the county.

Showing will be done in three classes: singles, pen of three and pen of ten.

THROUGH the cooperation of business interests closely allied with the swine industry here in the county, nearly \$300 has been donated for prizes. The Swine Assn. expressed appreciation of this cooperation by \$1.75 ms and individuals.

In addition, trophies are being given by the First National Bank.

to their central banks, these would then have from 13 1/2 to 16 billion in dollar holdings.

Either the low or the high figure would be more than we could pay out in gold on demand without dropping our currency backing below the legal amount.

That is the theoretical picture. Bankers here agree with the Treasury that nothing could be less likely. They cite the same points the treasury does, and add some more.

The stability of our government, compared with that of some others, leads many foreigners to want to keep their money here — just in case.

And American investments abroad far outstrip those of foreign investments here.

Killer Is Ruled Insane
CLEVELAND (AP) — Lawrence Thomas, 39, was held insane by a three-judge court Wednesday in a first degree murder trial. Thomas, who killed his wife Lucinda with a butcher knife Jan. 1, 1954, was ordered returned to Lima State Hospital for the Criminal Insane.

Simultaneous Phone Broadcasts Given OK

COLUMBUS (AP)—Ohio radio and television stations now are permitted to broadcast telephone conversations as quickly as they are received under an utilities commission order.

Previously, telephone calls were recorded and broadcast later. Wednesday the commission permitted Ohio Bell Telephone Co. to change its regulations to permit the simultaneous broadcast, provided the beep that lets the callers know their conversations is being recorded is retained.

Mr. and Mrs. Albert Young, of Lenoxburg, Ky., and Mr. and Mrs. Risk Young, of Morgan Ky., visited Wednesday with Mr. and Mrs. John Markley. Albert and Risk Young are brother and cousin respectively of Mrs. Markley.

IT'S SO EASY TO PLACE A WANT AD.

A SHORT DINNER DRESS of black silk lace over black silk chiffon, was designed by Cecil Chapman. A swath of emerald green chiffon drapes under the lace at the bosom in front, and is finished with matching green roses in back. This is a dress which could be worn at any season of the year.

Marilee Garden Club Elects New Officers

Mrs. Frank Lanum was elected president of the Marilee Garden Club when the group met at the home of Mrs. O. C. Kibler Tuesday afternoon.

Other officers are: Mrs. Clarence Thomas, vice president; Mrs. Glenn Smith, secretary - treasurer. The outgoing president, Mrs. Wash Lough, opened the meeting by reading a poem, "The Garden is a Shrine." A thank you note from the Library for the "Wild Flowers" book by Macmillan was read. The group discussed the fair flower show schedule.

Mrs. Lanum appointed Mrs. Everett Rife, Mrs. Thomas and Mrs. Herbert Rothrock as her program committee.

Mrs. Lough read the schedule for the fall flower show to be held Oct. 1. The show will be given by the Marilee and Twin Oaks Garden Clubs and the theme will be "Autumn in the Foothills."

Mrs. Everett Rife gave a review of "The Gardeners Travel Book," for the program. She named the State flower and tree of each state and told of their native flowers. Highlights of Mrs. Rife's interesting review were about the Great Sherman Bigtree, (sequoia) in California, the largest wisteria in the world in Sierra Madre, Calif., the 55-ft. Oak with a spread of 210 ft. and 21 ft. circumference, in Thomasville, Ga., the original Concord grape vine that still stands in Concord, Mass., the thousands of lilacs along lilac highway in Minnesota and many other interesting facts of trees and flowers.

Mrs. Lough and Mrs. John Rowland assisted the hostess in serving tempting refreshments.

Group Meets At Leisure Home

The Missionary Society of McNair Memorial Presbyterian Church met at the home of Mrs. Bryan Leasure Wednesday night. Mrs. Russell Miller was assisting hostess.

The vice president, Mrs. Robert Hyer opened the meeting by reading from the Book of First Corinthians and an article "Love - A Language Everyone Understands." Mrs. John Glenn closed with prayer.

Mrs. Charles Wood chose as her Bible study topic "Sickness and Health." A letter from Warren Wilson College in Swannanoa, N. C., was read thanking the society for its recent donation in the national missions assignment.

Mrs. Ivan Kelley introduced Mrs. John Glenn, of Bloomingburg, who gave an interesting talk on "The United Nations and Us." She closed the program by offering prayer for all nations.

During the social hour refreshments were served by the hostesses to 10 members and four guests, Mrs. Glenn, Chris Kearns, Betsy Miller and Kim Keaton.

Birthday Party

Mrs. Cecil Thomas entertained with a party Wednesday afternoon honoring her daughter, Cynthia, on her 10th birthday.

The young guests played games outdoors and each received a basket of candy and a paper hat.

After the young honored guest had opened her gifts, ice cream and cake were served to the following guests, Lana Jamison, Marjorie Roszmann, Mary Jo Strong, Pamela Payton, Carol Cahall and Chris Kearns.

Kay Lorraine Yahn Celebrates Birthday

Mrs. Clarence Yahn honored her daughter, Kay Lorraine, on her eighth birthday with a party, Wednesday afternoon.

The young guests enjoyed a treasure hunt along with other games and ice cream and cake were served.

Those present were Barbara Riley, Jo Ann Reno, Toni Whipkey, John Alan Gregory, Theresa Underwood, Sandra Fackler, Karol Kay Trout and Harriet Preston.

Nuptial Rites in Warren Unite

Joan Greenwald and Don Matson

The double ring ceremony uniting in marriage Miss Joan Greenwald, daughter of Mr. and Mrs. B. E. Greenwald, 1125 Willard S. E., Warren, and Al-c Don Arthur Matson, son of Mr. and Mrs. Wilbur Matson, 414 Earl Ave., was performed by the Rev. Clarence A. Miller in the Tod Avenue Methodist Church, Warren, at 7:30 p. m. July 5.

The bride's sister, Mrs. Richard Griffing, was the matron of honor, and Mr. Ray Brown, a friend of the groom, was best man. Ushers were Mr. Griffing and Mr. Robert Buckner.

Given in marriage by her father the bride wore a white satin gown with an overlay of net and her net veil was caught to a pearl tiara. White carnations centered with a white purple throated orchid formed her bouquet.

The matron of honor chose a pink gown of net over satin and carried a bouquet of pink carnations.

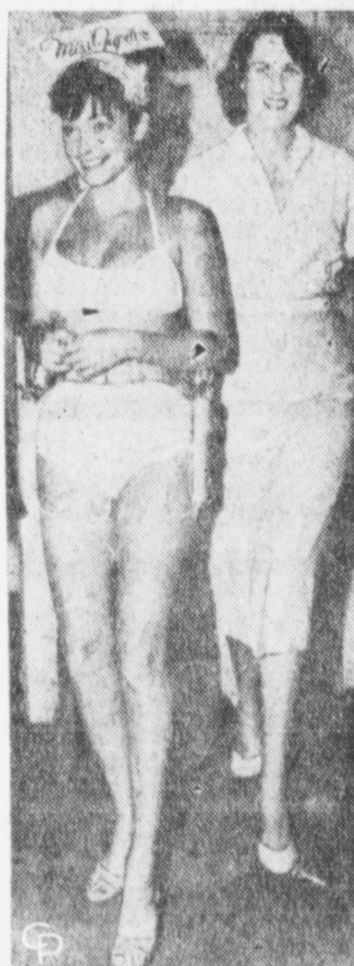

A three-tiered wedding cake and punch were served during the reception held in the church parlour immediately after the ceremony.

Out of town guests were from Chattanooga, Tenn., Fort Wayne, Ind., Washington C. H. Bloomfield and Necca.

The new Mrs. Matson is a graduate of the Warren Schools and is employed with the Social Security Administration in Warren. Al-c Matson attended Washington High School and is stationed at Youngstown Jet Air Force Base.

The young couple are now residing at 846 Atlantic N. E., Warren after their brief honeymoon.

Hustled Out

CHERYL KUBERT, representing herself as "Miss Jupiter," is hustled to "outer space" at the "Miss Universe" quarters in Long Beach, Calif., after trying to crash the contest with the plea that it should be open to outer space beauties. She was told, "catch the next flying saucer home." (International)

Photos for Fair Here Will Be Judged Sunday

Open To Members Of Camera Club and Fayette Countians

Judging of County Fair photo exhibits will be done Sunday before the Fair at 1 p.m. in Hays Auditorium, 247 1/2 E. Court St.

Entries may be made any time up until 10 a.m. that day at the Hites Studio, 233 E. Court.

Entry is open to any resident of the Fayette County and non-county members of the Fayette Camera Club. Paul Streyer, camera club member, is superintendent.

Ned Brumfield, Columbus photo judge, will be here to select ribbon winners in this year's competition. Entrants are welcome to join him and camera club members for dinner at noon in the Washington Hotel Coffee Shop.

DIVISIONS this year include a black and white or color pictorial portrait class, a black and white class and a color slide section.

Sub-classes in black and white are for photos of children, farm scenes and activities, industrial scenes, animals, landscapes and a general pictorial division.

Under color, sub-classes include pictorial portraits, general pictorials, farm livestock, landscapes and flowers.

Entrants may submit any number of prints, but only one prize will be awarded to any one person in any subclass. No prints shown previously will be eligible.

All prints must be taken by the entrant and mounted on standard 16 by 20 mount board. Prints must be 8 by 10 or larger and must be placed in such a way as to allow the mount board to be hung vertically.

Names of the entrant and class in which the print is to be entered must be placed on the back of the mount board in the upper left hand corner. Title and name of entrant must be placed on the front.

After the judging, almost all prints will be displayed at the Fair. Only exceptions will be those where there is duplication of subject matter, in which case final decision is up to the judge.

Her 90th Birthday Thursday

MISS HANNAH MULVIHILL

Miss Hannah Mulvihill will celebrate her 90th birthday Thursday in the house on the Borum Rd. near Sabina where she has lived her entire life.

There will be a family birthday party, as usual, with Mr. and Mrs. P. J. Keane, cousins, and other relatives there for ice cream and cake. There, too, will be Mr. and Mrs. Walter Hudson, who make their home with Miss Mulvihill, so she will not be alone.

Miss Mulvihill has many friends in Washington C. H. where she goes to St. Colman's Catholic Church every Sunday.

She likes to do her own shopping and enjoys ice cream cones, just like the youngsters. She is an avid reader of the newspapers to keep abreast of the times and has her favorite TV programs, among them the Perry Como and Lawrence Welk shows.

Since the death of her brother, Michael, in 1948, Mr. and Mrs. Hudson have lived with Miss Mulvihill, just to keep her company and not because she needs any special help in her daily life.

Her parents were born in County Kerry, Ireland, and came to this country in 1855 and moved to Sa-

to children of division veterans. One goes to Fred Giglio Jr. of Youngstown, and the other to Douglas S. Callander of John Hopkins Hospital, Baltimore, Md. The association will hold its annual reunion in Cincinnati Aug. 30.

Pedestrian Safety Citation Given City

Washington C. H. as received a citation from the American Automobile Assn. for making 1956 its eighth consecutive year with no pedestrian deaths. City Manager James F. Parkinson said Thursday.

Parkinson pointed out also that the city had no traffic deaths whatsoever in the eight-year period, and that this record remains intact thus far in 1957.

"Naturally," Parkinson said, "that's something we all can take pride in — the police, the motorists, and, most of all, the pedestrians themselves."

"I hope we can do it for eight more," he added.

Round about Fayette County

By B. E. KELLEY

One of the former landmarks in Bloomingburg, the William Noble grist and saw mill, located along the White Oak Rd. in the town, was torn down some 30 to 40 years ago, after serving the community for well over a half century.

The mill was built by William Noble and for years was operated by John Noble, his son, and father of W. P. (Bud) Noble.

Before William Noble died he sold the mill to Al Holland, who was the miller for years. He in turn sold it to Ed Moore, who owned it for several years before the business dwindled and the place was closed.

Stone burrs, or mill stones, were used in the mill.

As a boy, I used to accompany my father to the mill, making the trip from near Yatesville to Bloomingburg in a buggy with a two bushel sack full of shelled white corn, to be ground at the Noble mill, for use in corn bread and mush.

I forget whether the "dusty miller" charged so much per bushel for grinding, or took part of the grain.

Anyway, the old wooden structure which had served as a mill for a great many years ground both wheat and corn as well as barley. It was real - honest - to - goodness whole grain flour and meal, so rarely seen today.

For years the mill was operated by a steam engine. Later a gasoline engine was used to furnish power.

It was not a large mill, but the folks for many miles around liked the kind of meal and flour it produced. Farmers also bought heavily of the "middlings" from the Noble mill, which for so long was a real institution in Bloomingburg.

"Bud" Noble, well known implement and hardware dealer of the town, assisted his father in the mill when he was a youngster.

LAW PROHIBITS SALES

Dealers in cigarettes usually turn down boys and girls under 18 years of age who apply for cigarettes and point out the law which makes it a serious offense to sell cigarettes to minors.

I know some dealers who turn a deaf ear to statements made by boys and girls that "mom" or "pop" sent them for cigarettes, and insist on direct telephone calls from parents before the cigarettes are sold to the youngsters. Even then they technically violate the law.

Recently, a small boy appeared at a suburban grocery here and told the grocer that his mom "had sent him after cigarettes."

As he went out the grocer noticed nearly a half score of other small boys waiting for him. The youngster proceeded to open the pack of cigarettes and pass them out to his companions, who placed

them in their mouths ready to light.

When the grocer appeared there was an instant vanishing of cigarettes and the boy fled.

Here is the law regarding the sale of cigarettes to minors: "Section 12965, Ohio General Code:

"Whoever sells, gives, or furnishes to a person under 18 years of age a cigarette, cigarette wrapper or substitute for either, or a cigar or tobacco, shall be fined not less than \$25 nor more than \$100 or imprisoned not less than two days nor more than 30 days, or both, and for subsequent offense, shall be fined not less than \$50 nor more than \$300, and imprisoned not less than five days nor more than 60 days."

Everett E. Jones, alias Everett Sherrick, and Walter W. Barnes, both formerly of Washington C. H. were arrested in Cleveland as suspects in murder of Robert W. Lindsey in Jeffersonville July 4, 1937.

Heavy rains interrupted wheat harvest in community and miniature tornado swept through county a few miles south of Washington C. H., wrecking the Wiley Arnott home, while family was absent.

Amelia Earhart and Fred Noonan, who vanished in western Pacific while on around-the-world flight, could not be located.

Three miles of streets were to be resurfaced at cost of \$49,000.

Gwinn Grain Co., S. Fayette St., enlarged plant to 275,000 bushels capacity.

Company M returned from 25-day strike duty in Mahoning Co., remained 36 hours, and left for 15 days training at Camp Perry.

Wheat was averaging about 25 bushels to the acre and total yield in county was expected to be 975,000 bushels.

Marquis G. Marconi, inventor of wireless telegraphy, died in Italy.

COLUMBUS (AP)—An Ohio Department of Highway Safety survey indicates a safety campaign would be heeded by youthful drivers, but would have little effect on drivers over 40.

The survey showed, moreover, that teenage drivers consider their driving ability mediocre, but that motorists in the over-40 group consider their own driving satisfactory and tend to blame "the other driver, the highways or their automobiles" for mishaps.

Highway Safety Director Gordon Jeffery said the study was based on 7,148 one-car accidents investigated by the highway patrol in 1955, along with interviews with the drivers involved.

The blossom heads of the compass plant turn so that the petal edges point north and south.

Woman in Passport Office Aids in Citizenship Cases

By JANE EADS

WASHINGTON (AP)—There is no more precious document in the world today than an American passport, or a certificate attesting to an individual's registration as an American citizen, says Frances G. Knight, head of the U. S. Passport Office.

While emphasis is given to better known functions of the office, namely the processing and issuance of passports, Miss Knight says an equally important function is the settling of nationality and citizenship cases of persons who reside abroad and claim American nationality.

Since World War II, the complexities in the field of citizenship and nationality have increased. In 1940 there were only two ways

under then existing legislation by which an individual could lose American citizenship. Since 1940, through the enactment of subsequent congressional legislation, there are now approximately 16 ways to lose it.

In addition to establishing nationality and citizenship claims of Americans who reside abroad, the department handles complicated cases involving claims that have to be settled in accordance with the Immigration and Nationality Act, or prior laws, treaties and regulations.

"We adjudicate cases where naturalized citizens request our help in casting off their foreign citizenship," Miss Knight explained. "Some of them may be faced with induction into foreign armies, trial

and imprisonment for military delinquency, or payment of taxes in lieu of foreign military service. We assist them by making formal or informal representations to foreign governments."

The office also records birth reports of children born abroad of an American parent or parents. These are prepared in the consular offices and sent to the Passport Office for review and official recording. The office maintains these records and furnishes certification on them when requested. A report of this kind is a basic citizenship document, Miss Knight explained.

Certificates of nationality in the cases of native American citizens for use by them in judicial or administrative proceedings in foreign

states are also issued. Consular certificates of Witness to Marriage, often cited for the purpose of proving the marriage of an American overseas, are received and maintained by the office.

Massachusetts Farms Seeking Federal Aid

BOSTON (AP)—Seeking of federal aid and possibility of artificial rainmaking loomed today as the chief hopes to combat an eight-week drought spell that has caused millions of dollars loss to Massachusetts farmers.

In Rhode Island, Commissioner of Agriculture John L. Rego said his state already has been declared a disaster area.

Old Rancher Still Refuses To Leave Land

ALAMOGORDO, N.M. (P)—John Prather, 82, who has spent the last 60 years on the ranch he built in southern New Mexico, has spurned the latest Army proposals to let him remain on his land.

The Army wants the land for its McGregor Firing Range close to Ft. Bliss, Tex.

The military has offered Prather a life-time lease on his Otero County ranch house and a few acres surrounding the buildings with the provision that the property reverts to the Army upon Prather's death.

Prather told his attorney, J. Benson Newell of Las Cruces: "You send that paper back and you tell those colonels and generals down there at Ft. Bliss that John Prather isn't giving up his birthright. If they want me off that ranch, they'll have to carry me out in a box, and," the old rancher added, "I'll have company when I go."

Prather and his neighbors have an extension until Aug. 1 before the government takes over their lands for the big missile range.

Church Officers Named

SPRINGFIELD (P)—The principal officers of the Eastern Ohio District of the Pilgrim Holiness Church were reelected here Wednesday at the opening session of a two-day conference.

Mobile Chest X-ray Is Now at Hillsboro

A chest X-ray mobile unit from Glen Cove, N. Y., is at Hillsboro this week during the sesquicentennial there and Mrs. Don Stephens, executive secretary of the Tuberculosis and Health Assns. for Fayette and Highland counties is spending much of her time with it.

The unit is open daily from 10 a. m. until 5 p. m. and from 6:30 to 9:30 p. m. Anyone, except small children, may get a chest X-ray, but there is a charge of \$1 each to cover the cost of processing.

X-ray services in Highland County differ from those in Fayette County, where they are made without charge, because of a difference in the status of the health departments of the two counties. Fayette County, Mrs. Stephens said, can avail itself of the services of the Ohio Department of Health, which are offered free.

The X-ray unit was here last in 1955 and 1956 when a total of 4,979 X-rays were taken in the two surveys. The Health Department has requested a unit during the coming months, but no date has been set by the state department.

The unit was taken to Hillsboro by the Highland County TB and Health Assn., of which Miss Mary Hamilton of near Greenfield is president. Its services are available to anyone, regardless of place of residence, Mrs. Stephens said.

Members of the 18 Twig groups in Highland County are serving as hostesses for the unit and handle the registration. More than 150 women have volunteered to help, Mrs. Stephens said.

Three From Here On Honor Roll

Three students from Fayette County made the scholastic honor roll at Ohio State University during the spring quarter.

To make the honor roll, an average of 3.50 or better is required in any given course of study. Highest grade is 4.00.

On the honor roll of 287 students in the College of Education are Miss Laura Ann Beard, daughter of Mr. and Mrs. R. D. Beard, 321 E. Temple St., and Miss Joann Davis, daughter of Mr. and Mrs. M. Grove Davis of the Greenfield Rd.

Among the 126 on the honor roll of the College of Commerce and Administration is Charles D. Parkinson, son of City Manager and Mrs. James F. Parkinson, 612 Park Dr.

All three are Washington C. H. High School graduates.

In the Middle Ages, the British exchequer kept its accounts on notched sticks called tallies.

Beef Bargains Getting Scarce

Other Good Buys In Meat, However

By THE ASSOCIATED PRESS
Bargains in beef are scarce this week, but housewives can find good buys elsewhere in the meat department.

Here are a few for the coming weekend: Skinless frankfurters for the outdoor barbecue, chickens for frying or broiling, smoked picnic hams, roasting turkeys.

Some supermarket chains are featuring lamb shoulder chops and a few have posted lower prices for roast leg of lamb.

About the only good buy in beef is boneless chuck pot roast. The choicer cuts range from 4 to 12 cents a pound higher in many of the larger cities. Market analysts say there's only one way beef prices can go for the next few weeks—up. Choice beef on the hoof brings about \$26.50 a hundred pounds in Chicago, \$4 more than a year ago, and it's likely to go higher still.

Egg prices are going up by leaps and bounds. Large white grade A eggs are up as much as six cents a dozen in some cities and medium-size whites as much as eight cents a dozen.

One reason for the increase: most of the eggs sold in grocery stores and supermarkets today are of top quality, and it is these high grade eggs that are most seriously affected by hot weather. Besides discouraging the hens, heat causes eggs to deteriorate faster. Lower grade eggs which are used by commercial bakeries are plentiful and cheap, but the better grades are somewhat less abundant now.

Budget items on the produce counter include bunched radishes, scallions, white turnips, cut or bunched beets, and potatoes.

Long white potatoes from California are classed as excellent buys, along with celery, cabbage, green or yellow squash, and tomatoes.

Best buys in the fruit department include grapefruit, oranges, lemons, limes and berries.

Judge and Prober See Taxes Hiked

DEFUNIAK SPRINGS, Fla. (P)—Circuit Judge B. Stuart Gillis recommended to the county grand jury that it investigate property assessments.

The grand jury, headed by A. B. Covell, recommended a general reassessment.

The county commissioners Wednesday advertised increased evaluations on properties of Gillis and Covell.

During the American Revolution, muskets were so scarce that Benjamin Franklin advised the use of bows and arrows.

Business Notes

John Wightman has taken over the Pure Oil service station at the intersection of Dayton and Oakland Aves. under a lease. The company's bulk plant is immediately behind the service station.

Wightman, who took over from Don Stephens, has a background of about 10 years of experience in the business in Washington C. H.

In addition to a line of tires, batteries and other accessories, the station is equipped for complete automobile service, including lubrication.

1975 To See Decrease In Traffic Toll, Claim

CLEVELAND (P)—A National Safety Council official predicts the nation's traffic death toll will decline by 1975 in spite of a 100 per cent increase in the number of vehicles on the highways by that time.

Paul Jones, council public information director, said factors in reducing traffic deaths would include an aroused public, safer highways, an early ending to the automobile manufacturers' "horsepower race," coordinated action by public officials and increased driver education.

Old Rancher Still Refuses To Leave Land

ALAMOGORDO, N.M. (AP)—John Prather, 82, who has spent the last 60 years on the ranch he built in southern New Mexico, has spurned the latest Army proposals to let him remain on his land.

The Army wants the land for its McGregor Firing Range close to Ft. Bliss, Tex.

The military has offered Prather a life-time lease on his Otero County ranch house and a few acres surrounding the buildings with the provision that the property reverts to the Army upon Prather's death.

Prather told his attorney, J. Benson Newell of Las Cruces: "You send that paper back and you tell those colonels and generals down there at Ft. Bliss that John Prather isn't giving up his birthright. If they want me off that ranch, they'll have to carry me out in a box, and," the old rancher added, "I'll have company when I go."

Prather and his neighbors have an extension until Aug. 1 before the government takes over their lands for the big missile range.

Church Officers Named

SPRINGFIELD (AP)—The principal officers of the Eastern Ohio District of the Pilgrim Holiness Church were reelected here Wednesday at the opening session of a two-day conference.

Mobile Chest X-ray Is Now at Hillsboro

A chest X-ray mobile unit from Glen Cove, N. Y., is at Hillsboro this week during the sesquicentennial there and Mrs. Don Stephens, executive secretary of the Tuberculosis and Health Assns. for Fayette and Highland counties is spending much of her time with it.

The unit is open daily from 10 a. m. until 5 p. m. and from 6:30 to 9:30 p. m. Anyone, except small children, may get a chest X-ray, but there is a charge of \$1 each to cover the cost of processing.

X-ray services in Highland County differ from those in Fayette County, where they are made without charge, because of a difference in the status of the health departments of the two counties. Fayette County, Mrs. Stephens said, can avail itself of the services of the Ohio Department of Health, which are offered free.

The X-ray unit was here last in 1955 and 1956 when a total of 4,979 X-rays were taken in the two surveys. The Health Department has requested a unit during the coming months, but no date has been set by the state department.

The unit was taken to Hillsboro by the Highland County TB and Health Assn., of which Miss Mary Hamilton of near Greenfield is president. Its services are available to anyone, regardless of place of residence, Mrs. Stephens said.

Members of the 18 Twig groups in Highland County are serving as hostesses for the unit and handle the registration. More than 150 women have volunteered to help, Mrs. Stephens said.

Three From Here On Honor Roll

Three students from Fayette County made the scholastic honor roll at Ohio State University during the spring quarter.

To make the honor roll, an average of 3.50 or better is required in any given course of study. Highest grade is 4.00.

On the honor roll of 287 students in the College of Education are Miss Laura Ann Beard, daughter of Mr. and Mrs. R. D. Beard, 321 E. Temple st., and Miss Joann Davis, daughter of Mr. and Mrs. M. Grove Davis of the Greenfield Rd.

Among the 126 on the honor roll of the College of Commerce and Administration is Charles D. Parkinson, son of City Manager and Mrs. James F. Parkinson, 612 Park Dr.

All three are Washington C. H. High School graduates.

Beef Bargains Getting Scarce

Other Good Buys In Meat, However

By THE ASSOCIATED PRESS
Bargains in beef are scarce this week, but housewives can find good buys elsewhere in the meat department.

Here are a few for the coming weekend: Skinless frankfurters for the outdoor barbecue, chickens for frying or broiling, smoked picnic hams, roasting turkeys.

Some supermarket chains are featuring lamb shoulder chops and a few have posted lower prices for roast leg of lamb.

About the only good buy in beef is boneless chuck pot roast. The choicer cuts range from 4 to 12 cents a pound higher in many of the larger cities. Market analysts say there's only one way beef prices can go for the next few weeks—up. Choice beef on the hoof brings about \$26.50 a hundred pounds in Chicago, \$4 more than a year ago, and it's likely to go higher still.

Egg prices are going up by leaps and bounds. Large white grade A eggs are up as much as six cents a dozen in some cities and medium-size whites as much as eight cents a dozen.

One reason for the increase: most of the eggs sold in grocery stores and supermarkets today are of top quality, and it is these high grade eggs that are most seriously affected by hot weather. Besides discouraging the hens, heat causes eggs to deteriorate faster. Lower grade eggs which are used by commercial bakeries are plentiful and cheap, but the better grades are somewhat less abundant now.

Budget items on the produce counter include bunched radishes, scallions, white turnips, cut or bunched beets, and potatoes.

Long white potatoes from California are classed as excellent buys, along with celery, cabbage, green or yellow squash, and tomatoes.

Best buys in the fruit department include grapefruit, oranges, lemons, limes and berries.

Judge and Prober See Taxes Hiked

DEFUNIAK SPRINGS, Fla. (AP)—Circuit Judge B. Stuart Gillis recommended to the county grand jury that it investigate property assessments.

The grand jury, headed by A. B. Covell, recommended a general reassessment.

The county commissioners Wednesday advertised increased evaluations on properties of Gillis and Covell.

During the American Revolution, muskets were so scarce that Benjamin Franklin advised the use of bows and arrows.

Lady Producer Tells of Woes

TV Sponsors Slow In Backing Panels

HOLLYWOOD (AP)—How does a strikingly pretty girl get to be a motion picture producer?

"It isn't easy," says Bernice Block, the newest of less than half a dozen women producers in Hollywood.

Blonde Miss Block has just completed her first production—"Dino," a down-to-earth story of the rehabilitation of a juvenile delinquent.

Looking down from the cloud she's been riding since release of her picture, Miss Block today recalled the struggle before she reached her goal.

Without any formal theatrical training but with a strong college-born interest in sociology and psychology, Miss Block started trying to edge into the highly competitive producing field four years ago.

She learned how to acquire a story and line up a good screen writer, director and cast. With that package under her arm, she goes to a studio to persuade it that her story is worth financing, filming and distributing.

That's what she did with "Dino" and that's what she intends to do with her new undertakings.

The young producer's first picture stars Sal Mineo, who has had a quick rise to popularity; Brian Keith and Susan Kohner.

"Dino" cost \$300,000 to produce. Miss Block says she'll make money and be satisfied with a \$1,500,000 gross, but feels it will go higher.

Does Hollywood welcome women producers?

"I'm afraid not," says Miss Block. "They don't seem to want to give them a chance. But I feel that a woman producer—and a woman director, too—knows what women want to see on the screen."

"Now that I have a picture to my credit, I'm sure the future will be easier."

Boy's 'Barter' To Surprise Dad

VALLEY FORGE, Pa. (AP)—A couple of Scioto County, Ohio, parents are going to be a bit surprised by a bit of "barter" their son has shipped them from the National Boy Scout Jamboree now in progress here.

Jack Davis 16-year-old scout from South Webster, got a pup named Venus in trade. Then the health and sanitation supervisors found out and pets are not allowed.

Jack telephoned his parents, asking if he might ship home a favorite bit of barter. They said yes without even asking what the barter was.

When High Court Dictates, This Gal Listens Carefully

By JANE EADS

WASHINGTON (AP)—Eleanor Margaret Bumgardner has nine bosses. As "Floating" secretary she has served the justices of the U. S. Supreme Court the past eight years, substituting for their private secretaries when they are ill, or away, sometimes several weeks, even months.

"Lady," as she was called by the late Supreme Court Justice Frank Murphy, whose devoted personal secretary she was for 18 years, says this unique responsibility is harder than being a Girl Friday to just one scholarly Crusoe.

"But it's very interesting," she says, "the justices are all so individual, and each office is different. It's a challenge. Keeps you on your toes. I often make the rounds of all the offices in a year I've learned a lot."

Some of what she has learned in serving these distinguished gentlemen over the years no doubt will

be reflected in a manual for secretaries which she is in the process of writing. This she's doing in spare moments she can squeeze in between secretarial stints and the reference and research work she must do. Traveled, well-read, a talented hostess, "Lady" is a popular figure in Washington society.

6 \$1 Chickens Cost Man \$99, Jail Time

AKRON (AP)—Six chickens, which would cost about \$1 apiece in a meat market, have cost a 19-year-old Cleveland youth \$99 and 30 days in Summit County jail.

The youth Charles E. Vanderlain, was charged with stealing the six chickens from the Cleveland Boys School at Hudson. The fine and jail sentence were levied in Cuyahoga Falls Municipal Court where Vanderlain was brought by sheriff's deputies for a hearing.

Her long association with Justice Murphy began when he was mayor of Detroit in 1933 and ended with his death in July 1941 after his nine and a half years on the bench of the high court. In between, she had accompanied him to the Philippines where he was the first high commissioner and its last governor general, and back to Michigan when he became its governor.

Many years ago Lady began a collection of more than 1,000 dolls from all parts of the world, including one that belonged to Thomas Jefferson.

She says, though, her "prize doll" has been Patsy Li, the little Chinese girl adopted by the Marines in 1942 on Guadalcanal after she'd been left for dead by the Japanese. Lady is legal guardian to Patsy Li, now 21, who is simultaneously training to be a nurse and working for, a degree at Catholic University. She is also legal

guardian to two American children. Lady, who was appointed "floating secretary" by the late Chief Justice Fred M. Vinson and occupies her own private office suite, is looking forward to a visit to Ireland in August as a member of the "Dublin Horse Show Air Cruise Houseparty." Her maternal grandfather, John Hartnett, was born in County Limerick.

Ohio's Welfare Problems Scheduled for Close Look

COLUMBUS, Ohio (AP)—Pressing Ohio welfare problems go under the microscope next week.

A committee headed by Rep. Kline L. Roberts of Columbus, House Republican floor leader, meets July 26 to start studies on poor relief, aid for aged, dependent children and others in need.

The inquiry will be the first to get under way on more than a score of problems entrusted to the Legislative Service Commission, fact-finding arm of the Legislature.

Other studies to follow soon include a review of state liquor laws, job classifications of state employees, state racing commission operations, metropolitan area problems, court systems and retirement programs for police, firemen and the State Highway Patrol.

Sen. C. Stanley Mechem of Nelsonville, Senate Republican floor leader, named 14 other members of the Senate and House to help Roberts in the survey.

Mechem is the new chairman of the commission composed of law makers who seek solution to legislative problems between sessions of the General Assembly. Committees authorized to conduct 22 studies will report recommendations to the 1959 Legislature for action.

Roberts personally urged the commission to approve an early start for the welfare studies. He said previous studies made a good start but that financial and other problems require more investigation.

The last study group recommended removal of the \$65-a-month ceiling on old age pensions.

The 102nd General Assembly considered accepting the recommendation but adjourned without taking action.

Members said state administration insistence that pensions should be handled on the basis of need faded under estimates that the additional cost would be 3½ million dollars or more a year.

About 95,000 Ohioans currently draw old age pensions. Nearly half of them receive the maximum. Monthly payments approximate six million dollars.

A recent order by the Division of Aid for the Aged pointed out financial problems. Officials said money was not available to continue health care services at the previous level. They directed hospitals and physicians to effect economies.

The cost of health care rocketed after a \$200 annual ceiling was lifted about a year ago and such services to the aged made accord-

ing to need. Members of the welfare study committee named to assist Roberts include: Sens. I. E. Baker (R-Montgomery), William Beckett (R-Butler), Anthony O. Calabrese (D-Cuyahoga), Frank W. King (D-Lucas) and Clarence Krueger (R-Erie). Reps. Harry Corkwell (R-Putnam), Charles F. Kurfess (R-Wood), Elton Lahr (R-Sandusky), James A. Lantz (D-Fairfield), Anthony F. Novak (D-Cuyahoga), John C. Pollock (R-Lake), Walter L. White (R-Allen), Anne M. Donnelly (D-Cuyahoga) and Loretta C. Woods (R-Scioto).

melon was scattered across three traffic lanes at the intersection and wasn't pink but "blood red." His first thought was that there had been an accident, Ferebee said, and his attention strayed from the red light momentarily. Case dismissed, the judge said.

Ohio Community Picked for Plant

DETROIT (AP)—A 316 million plant for applying cold finishing on stainless steel and strip will be built at Louisville, Ohio, near Canton, by the Jones & Laughlin Steel Corp.

Louisville won out as the site for the proposed plant over other sites in Ohio, Indiana and Michigan. Michael Schnurr, general manager of the company's stainless steel division, said Louisville was chosen because portions of an existing plant can be purchased.

The company had thought of building in Michigan, near Monroe, Mich., but the Michigan tax picture and the outlook for the near future are "not at all encouraging. In Ohio it is almost the reverse."

Squashed Watermelon Brings Man Acquittal

NORFOLK, Va. (AP)—Squashed watermelon figured in the acquittal of Edward S. Ferebee on a charge of disregarding a red light.

Ferebee, an attorney, told Judge Vernon D. Hitchings the watermelon was scattered across three traffic lanes at the intersection and wasn't pink, but "blood red."

His first thought was that there had been an accident, Ferebee said, and his attention strayed from the red light momentarily.

Case dismissed, the judge said.

Always Prepared

ST. JOSEPH, Mo. (AP)—With the temperature at 98 degrees recently, Paul E. Zimmerman, a

Missouri Highway Department engineer, reported an ample supply of cinders had been collected to spread on icy highways in this area next winter.

Mount Vernon Ladies Group Preserves Historic Name

By JANE EADS
WASHINGTON (AP)—Though innkeepers and realtors have drummed up quite a business posting "George Washington Slept Here" signs on their properties, there's only one Mount Vernon as far as the Virginia Legislature is concerned.
A bill passed in February 1956 by the state's lawmakers prohibits use of the name of George's home by any county, city or town in the commonwealth, according to the annual report just published by the Mount Vernon Ladies Assn. of the Union, which purchased the home in Virginia in 1858.
The name "Mount Vernon" is reserved specifically for the home and tomb of Washington, the legislature has ruled as the result of considerable agitation on the part of the vigilant ladies group.
The association, made up of 30 women who are chosen from the various states and serve without

salary, says its object is to "perpetuate the sacred memory of the 'Father of His Country' and with loving hands to guard and protect the hallowed spot where rest his mortal remains."
"Recognizing the continuing impact of suburban development on a previously tranquil countryside," the report explains, "the bill protects in perpetuity the name which Lawrence Washington, half-brother of George, gave to his ancestral acres."
The association reports a record-breaking 1,159,768 visitors to Mount Vernon during 1956.
Mrs. Helen Brennan, Girl Friday to Sen. John L. McClellan (D-Ark) is piling up a lot of overtime these days helping her busy boss keep up with an increasingly heavy schedule.
McClellan is a member of 14 congressional committees and subcommittees and gets an overwhelming load of mail from his

constituent. Currently, the hearings of the Senate select committee on improper labor management, of which he is chairman, is bringing into his office an average of 600 letters a day, says Mrs. Brennan, who has worked for him for 10 years.
Her husband, the pretty secretary says, is very patient about whipping up his own dinner. He

even takes some of his vacation when she has to go to Little Rock, Ark, to work in the senator's hometown office during the summers, so he can be near her.

Sharp Increase In Meat Need Seen

WASHINGTON (AP)—The Agriculture Department now predicts that by 1975 the nation will need from 45 to 60 per cent more meats, poultry products and milk than it has been consuming.
This forecast is based on prospective increases in population and on a rising dietary standard. Officials say this opens the way for considerable expansion in the livestock and poultry industries, but cautions that not that much growth will be needed in the production of feeds for these industries.

President Told Ohio A-Plant Labor Dispute Deadlocked

WASHINGTON (AP)—A presidential board of inquiry has reported a continuing deadlock in the wage dispute between employees and management at the Goodyear Atomic Corp. plant near Waverly, Ohio.
Under terms of the Taft-Hartley labor law, President Eisenhower now is referring the dispute to the National Labor Relations Board. The law requires the board to set a date within 20 days for an employee vote on whether to accept or reject the company's last wage offer.
Last May 23, the government obtained an 80-day injunction under the Taft-Hartley law to block a strike at the plant. That action was taken after an emergency board of inquiry appointed by Eisenhower had studied the dispute.
In a new report to the President today, the board advised "the dispute has not been settled" although labor and management representatives met on 17 days between May 27 and July 11.
The employees at the plant are members of the Oil, Chemical and Atomic Workers International Union.
Negotiations looking toward a settlement were held under the auspices of the Federal Mediation and Conciliation Service.
"Both parties have made some concessions since the board first met on May 15," the report to the president said. "They are still in dispute, however, over wages as tied in with the team of a new labor agreement."
The inquiry board is headed by Guy Farmer, a former member of

The Record-Herald Thursday, July 18, 1957 15

the National Labor Relations Board.
The board's report to the President said the company's last wage offer was an increase of 11 cents an hour in all wage rates which were in effect April 30. That increase would become effective on the Monday following union ratification of the offer.

Trotters 'n' Pacers

By the Gate

Darning the 9-year-old bay gelding owned by Frank S. Jackson won his first start of the season at Chicago July 1. Now in the stable of Doc McMillan he was driven by Max Norris to win a \$1,400 class B trot in 2:05.2.

Eddie Cobb drove Barney Coe's mare, Trudy Spencer, at Historic Track, Goshen, N. Y., and finished fourth the first dash but won the second of the two-heat plan in 2:08.1.

Jody's Rose, a 3-year-old Frank Jackson filly owned by Wendell Kirk has been a winner at Grandview. She placed in 2:10.1 her first time out at that track and returned \$12.60, \$5.20 and \$3.60 in the betting. Last Friday she won again in 2:09.2 and her mutual return was \$26.80, \$9.40 and \$5.20.

Tilden Richard of near Sabina has his 4-year-old mare Fayette Lady in good racing condition this year. She won at Grandview recently in 2:11. She was driven by Clarence Newhart.

Just finished a horsey talk with George Steen head of the speed committee of the Fayette County Fair. He reports that the Fair racing outlook is good. "We'll have more horses on the grounds than last year, since we have more entries in the colt stakes," he predicted. Reservations are coming in and so far the stables of Joe Light-hill, Dud Moon, McKinley Kirk, Perry Remohr and Damon Baker's Belle Aire are sure bets to be here, he said.

The track has been entirely re-worked and should be faster than usual. We all know the Fair-ground track here has been noted as fast by all horsemen. Steen also said that post time each day, Wednesday through Saturday, will be at 1:30 p. m.

Lady's First, now a 6-year-old mare, was a recent winner at Yonkers in 2:03.1, taking a \$7,500 free-for-all trot. Horsemen here will remember this mare as a consistent winner when a 2-and-three year-old racing on the Ohio Colt Racing Association circuit. As a 5-year-old she soon won the Governor's Cup at the Ohio State Fair. She beat Audrey Gordon's Jane Averill several times. She is owned by the Ohio Valley Stables.

There is now a "Miss Times Square" growing up on the acres of Dr. M. H. Roszmann on the Xenia Rd. The filly is by Times Square Out of Country Miss by Jerry M. "Doc" is proud of her and is always glad to show her to his many visitors.

Remember last year we reported that Ray Garrity had been nursing a good prospect along when suddenly his 3-year-old Irish Knight-dale was the victim of a broken leg? Well, instead of giving him up Ray had a veterinarian set the leg in a cast. Now as a 4-year-old he has been trained this season and finished second his first start at Grandview. He is well bred; his ancestry goes back to Frisco Dale, Hal Dale and volomite.

George Van Camp's Steamin' Demon is now at Grandview and will probably start about the time you read this. He hasn't started since the Motor City Pace at Wolverine, near Detroit, on June 27. He was eligible to the Trans-America pace at Yonkers last Thursday but didn't start when that race was called off. S strike by harness horse own-

ers and trainers has nearly stopped racing at the Long Island plant. The dispute is over the track's share of money being offered to the horsemen; the owners are asking for an increase from 35 to 45 per cent of the track's cut from the mutuels.

Hugh Beatty has moved his stable from Grandview to Kentucky Raceway at Florence, Ky., just across the river from Cincinnati.

Belle Mahone is gone but her blood is still prevalent in today's racing stock. Wendell Kirk drove Adios out of Mary Belle Mahone, to win the first start of her life a class D Pace at Painesville three weeks ago in 2:08.3. She is owned by McKinley Kirk. Since then she has won two starts making it three in a row to date.

Our advise to local fans: Don't fail to attend the Fair next week. Harness races each afternoon should be well contested.

Car's Automatic Shift Frightens Mechanic

TOLEDO (AP) — Mechanic Edgar Denniston, 54, had an uneasy moment as he leaned under the hood of an automobile and started the engine.

The car's automatic shift was in reverse. As Denniston scrambled from under the hood, the car backed out of the garage, hit a tree, and bounced back into the garage.

Trotters 'n' Pacers

By the Gate
Darning the 9-year-old bay gelding owned by Frank S. Jackson won his first start of the season at Chicago July 1. Now in the stable of Doc McMillan he was driven by Max Norris to win a \$1,400 class B trot in 2:05.2.

Eddie Cobb drove Barney Coe's mare, Trudy Spencer, at Historic Track, Goshen, N. Y. and finished fourth the first dash but won the second of the two-heat plan in 2:08.1.

Jody's Rose, a 3-year-old Frank Jackson filly owned by Wendell Kirk has been a winner at Grandview. She paced in 2:10.1 her first time out at that track and returned \$12.60, \$5.20 and \$3.60 in the betting. Last Friday she won again in 2:09.2 and her mutual return was \$26.80, \$9.40 and \$5.20.

Tilden Richard of near Sabina has his 4-year-old mare Fayette Lady in good racing condition this year. She won at Grandview recently in 2:11. She was driven by Clarence Newhart.

Just finished a horse talk with George Steen head of the speed committee of the Fayette County Fair. He reports that the Fair racing outlook is good. "We'll have more horses on the grounds than last year, since we have more entries in the colt stakes," he predicted. Reservations are coming in and so far the stables of Joe Light-hill, Dud Moon, McKinley Kirk, Perry Remohr and Damon Baker's Belle Aire are sure bets to be here, he said.

The track has been entirely re-worked and should be faster than usual. We all know the Fair-ground track here has been noted as fast by all horsemen. Steen also said that post time each day, Wednesday through Saturday, will be at 1:30 p. m.

Lady's First, now a 6-year-old mare, was a recent winner at Yonkers in 2:03.1, taking a \$7,500 free-for-all trot. Horsemen here will remember this mare as a consistent winner when a 2-and-three year-old racing on the Ohio Colt Racing Association circuit. As a 5-year-old she soon won the Governor's Cup at the Ohio State Fair. She beat Audrey Gordon's Jane Averill several times. She is owned by the Ohio Valley Stables.

There is now a "Miss Times Square" growing up on the acres of Dr. M. H. Roszmann on the Xenia Rd. The filly is by Times Square Out of Country Miss by Jerry M. "Doc" is proud of her and is always glad to show her to his many visitors.

Remember last year we reported that Ray Garrity had been nursing a good prospect along when suddenly his 3-year-old Irish Knight-dale was the victim of a broken leg? Well, instead of giving him up Ray had a veterinarian set the leg in a cast. Now as a 4-year-old he has been trained this season and finished second his first start at Grandview. He is well bred; his ancestry goes back to Frisco Dale, Hal Dale and volomite.

George Van Camp's Steamin' Demon is now at Grandview and will probably start about the time you read this. He hasn't started since the Motor City Pace at Wolverine, near Detroit, on June 27. He was eligible to the Trans-America pace at Yonkers last Thursday but didn't start when that race was called off. S strike by harness horse own-

ers and trainers has nearly stopped racing at the Long Island plant. The dispute is over the track's share of money being offered to the horsemen; the owners are asking for an increase from 35 to 45 per cent of the track's cut from the mutuels.

Hugh Beatty has moved his stable from Grandview to Kentucky Raceway at Florence, Ky., just across the river from Cincinnati.

Belle Mahone is gone but her blood is still prevalent in today's racing stock. Wendell Kirk drove Adios Special, a 3 year-old filly by Adios out of Mary Belle Mahone, to win the first start of her life a class D Pace at Painesville three weeks ago in 2:08.3. She is owned by McKinley Kirk. Since then she has won two starts making it three in a row to date.

Our advise to local fans: Don't fail to attend the Fair next week. Harness races each afternoon should be well contested.

Car's Automatic Shift Frightens Mechanic

TOLEDO (AP) — Mechanic Edgar Denniston, 54, had an uneasy moment as he leaned under the hood of an automobile and started the engine.

The car's automatic shift was in reverse. As Denniston scrambled from under the hood, the car backed out of the garage, hit a tree, and bounced back into the garage.

Sad Sam Jones Is Big Wheel in Cardinal Campaign

By THE ASSOCIATED PRESS

It may have been kids like the McDaniel boys who perked up St. Louis pitching, but at the moment it's late-comer Sam Jones who has won the big ones to put the Cardinals in the National League lead.

The 31-year-old righthander, who went to the Cards from Chicago's Cubs in one of Frank Lane's deals last December, now has won four in a row for the first time in a five-year major league career and each has figured in the Red Birds' rise to the top.

He got them back into first place Wednesday night, breaking the Cards' four-game losing streak with a 7-3 victory over fourth-place Brooklyn that ended the Dodgers' spurt at five games and finally junked Don Newcombe's six-year whammy.

St. Louis regained the lead by one percentage point as Milwaukee dropped Philadelphia out of first with a 10-3 decision that lifted the Braves to second with a .570 percentage. The Cards are .571.

Cincinnati remained fifth, two games back, on a 5-4 victory over New York Giants with Redleg Frank Robinson shrugging off Tuesday's beating to return to the lineup. Chicago scored twice in the seventh to beat Pittsburgh 4-3.

In the American League, the New York Yankees stayed four games ahead with a 5-1 victory at Detroit after Chicago's second place White Sox had defeated Baltimore 3-1. Boston lost to Kansas City 4-3 in 12 innings, but Ted Williams took the league batting lead from Yankee Mickey Mantle. Washington rapped Cleveland off a five-game winning streak 11-6.

Jones, tagged "Toothpick Sam" because he's never without one on the mound, gave up 10 hits but struck out 12 and never was in much trouble.

Newk, who had won 12 in a row from the Cards since Aug. 23, 1951 finally got his lumps in a four-run fourth sparked by Wally Moon's two-run homer.

Jones, whose league-leading strikeout totals for the past two years were dulled by the fact he also led in bases on balls, walked only one Wednesday night.

The Braves made it six out of nine with a five-run seventh to chill the Phils, who protested the game in losing their second in a row since taking the league lead Monday. The big beef came on a first-inning Milwaukee doubleplay, leading to a quick shower for starter Robin Roberts when he menaced Empire Jacko Conlan during the row. Jack Meyer lost it while Lew Burdette won his.

Avenging Realtors Swamps Kernels

The Realtors, avenging a setback handed them Tuesday night, belted the Kernels Wednesday night with a 11-3 score in a Little League game.

The loss snapped a two-game win streak which the Kernels were hoping would grow. The previous night, the Kernels snapped a five-game Realtor win streak behind the hurling efforts of Harry O'Call.

Wednesday night the Realtors beat the Kernels behind the pitching of Jimmy Fletcher, usually the catcher for the Realtors. Fletcher handcuffed the Kernels on four hits.

Richard Schlue and Dale Lynch shared the hurling duties for the losers.

Bruce Climer, shortstop in place of Tommy Townsend who was catching, had two hits to his credit in leading the Realtors attack.

Giardello Decision Proves Unpopular

LOUISVILLE, Ky. (AP)—Wednesday night, in a nationally televised fight, Joey Giardello took an unanimous but unpopular decision over Chico Vejar.

The action continued on into the dressing room where Steve Ellis, who handled Vejar, announced he had been tossed out of Giardello's dressing room.

Ellis, in a verbal battle with Tony Ferrante, Giardello's manager, challenged the winner to a rematch—winner take all.

Ferrante accepted.

Then, sports promoter Bill King said "Giardello never will fight here again as long as he has anything to do with Ferrante."

Thunderbirds Upset Mains

The Thunderbirds achieved one of the biggest goals of the Minor League season Wednesday evening as they sent the Main line down to their first setback, 7-4, behind the one-hit hurling of Gary Pearson.

Six hits were enough for the Thunderbirds to upset the Mains, but the only outfield kit among their six safeties was Cliff Puckett's single. Don Fortier led the attack on the league leaders with 2 for 2.

The Main nine, going for its tenth straight victory, was stopped cold by Pearson and company.

The lineups were: Thunderbirds—Snyder, Anders, Dunn, Cline, Fortier, Stolzenberg, Coldiron, Puckett, Pearson, Morris, Brown, Battery: Pearson and Puckett.

Main: Goldsberry, Penrod, Preston, Long, Snyder, Dillard, Tillet, Shoults, Washburn, McMurtry, Lentz, Battery: Washburn and Shoults.

All Stars Win From Greenfield

The All Star team that will represent the Babe Ruth League here in the tournament at Phillipsburg Saturday came through with a 9 to 7 victory over the Greenfield All Stars at the Oakland Ave. park here Wednesday evening.

Massie, Crouse and Bush who shared the pitching chores for the Washington C. H. team, held the Greenfielders to 4 hits. The pitchers also sparked their team's attack with a couple of doubles by Massie and a triple by Crouse.

The WCH All Stars will play Phillipsburg on its home lot at 8 p. m. Saturday.

19th Hole For Golf

It's getting to be a habit for Mrs. Willard McLean to take the honors for the Wednesday's ladies day golf at the Country Club.

She did it again this week—for the third week in a row. And this time with a 43, her best-ever score. No other member of the feminine contingent of the club has turned in as good a score in more than a year. Mrs. McLean received a special certificate from Tony Capuana, the club pro, in recognition of her achievement.

Closest to Mrs. McLean's 43, was the 53 carded by Kristen Himmelspech. Mrs. J. O. Garringer and Mrs. Wayne Shobe turned in 54 apiece and Mrs. Ralph Bray 55.

Mrs. McLean also took the low net (gross minus handicap) honors with a 34. Mrs. Robert Hagerty was second with 39 and Mrs. Bray third with 40.

Mrs. McLean had to share putting honors, however, with Mrs. Hugh Zimmerman. Each took 13 strokes on the nine greens. Mrs. Neil Helfrich was close behind with 14.

Mrs. Frank Dawson and Mrs. Carl Mason had the most 8s and the blind bogey was won by Mrs. Ray French.

Other net scores were: Mrs. C. G. Hayes 47; Mrs. William Wead 45; Mrs. Howard Harper 52; Mrs. Dwight Coffman 41; Mrs. Max Lawrence 45; Mrs. Charles Griffiths 44; Mrs. Marvin Roszmann 41; Mrs. Harry Townsend 49 and Mrs. Omar Schwartz 50.

Mrs. Griffiths and Mrs. Hagerty were the hostesses for the noon luncheon in the club house.

Babe Ruth All Stars To Play in Tourney

The All Stars of the two divisions of the Fayette County Babe Ruth League, National and American, will enter a Babe Ruth All Star tournament at Phillipsburg, near Dayton, Saturday at 6 and 8 p. m. respectively.

The National Division All Stars, managed by Martin O'Call and Don Graves and representing four Fayette County Babe Ruth teams, will get into action against an American Division team of the Babe Ruth Leaguers from Fairbourne, at 6 p. m.

On the National Division All Star team here will be boys from Brays, Bloomingburg, Good Hope and Girtons teams. All told, 15 boys will be picked from these four teams for the squad.

The American Division All Stars are managed by Frank Reno and Carl Wilt. The squad is made up of boys from Medics, Seals and Jeffersonville teams.

The American Division All Stars will play Phillipsburg, all Stars at 8 p. m. under the lights. This will be to a disadvantage for the American Division nine since its games are played during the day in regular season play.

Managers Wilt and Reno said there will possibly be a practice

Iowa Vet Slated To Test Porter

OMAHA (AP)—Ann Casey Johnson, 34-year-old Mason City, Iowa, veteran, gets a return shot today against Barbara Romack Porter in the feature match of the third round in the Women's Western Amateur Golf Tournament.

Ann had her first shot at the little California blonde last winter. It was a wide miss—she lost 8 and 7 in the semifinals of the St. Augustine (Fla.) tournament.

Only last week Ann said, "Barbara is the best golfer entered in the Omaha meet." But that doesn't mean the five-time Iowa champion and a semifinalist in the 1956 National Amateur couldn't come up with a surprise.

By THE ASSOCIATED PRESS

It may have been kids like the McDaniel boys who perked up St. Louis pitching, but at the moment it's late-comer Sam Jones who has won the big ones to put the Cardinals in the National League lead.

The 31-year-old righthander, who went to the Cards from Chicago's Cubs in one of Frank Lane's deals last December, now has won four in a row for the first time in a five-year major league career and each has figured in the Red Birds' rise to the top.

He got them back into first place Wednesday night, breaking the Cards' four-game losing streak with a 7-3 victory over fourth-place Brooklyn that ended the Dodgers' spurt at five games and finally junked Don Newcombe's six-year whammy.

St. Louis regained the lead by one percentage point as Milwaukee dropped Philadelphia out of first with a 10-3 decision that lifted the Braves to second with a .570 percentage. The Cards are .571.

Cincinnati remained fifth, two games back, on a 5-4 victory over New York Giants with Redleg Frank Robinson shrugging off Tuesday's beating to return to the lineup. Chicago scored twice in the seventh to beat Pittsburgh 4-3.

In the American League, the New York Yankees stayed four games ahead with a 5-1 victory at Detroit after Chicago's second place White Sox had defeated Baltimore 3-1. Boston lost to Kansas City 4-3 in 12 innings, but Ted Williams took the league batting lead from Yankee Mickey Mantle. Washington rapped Cleveland off a five-game winning streak 11-6.

Jones, tagged "Toothpick Sam" because he's never wound up one on the mound, gave up 10 hits but struck out 12 and never was in much trouble.

Newk, who had won 12 in a row from the Cards since Aug. 23, 1951 finally got his lumps in a four-run fourth sparked by Wally Moon's two-run homer.

Jones, whose league-leading strikeout totals for the past two years were dulled by the fact he also led in bases on balls, walked only one Wednesday night.

The Braves made it six out of nine with a five-run seventh to chill the Phils, who protested the game in losing their second in a row since taking the league lead Monday. The big beef came on a first-inning Milwaukee doubleplay, leading to a quick shower for starter Robin Roberts when he menaced Umpire Jocko Conlan during the row. Jack Meyer lost it while Lew Burdette won his

Avenging Realtors Swamps Kernels

The Realtors, avenging a setback handed them Tuesday night, belted the Kernels Wednesday night with a 11-3 score in a Little League game.

The loss snapped a two-game win streak which the Kernels were hoping would grow. The previous night, the Kernels snapped a five-game Realtor win streak behind the hurling efforts of Harry O'Call.

Wednesday night the Realtors beat the Kernels behind the pitching of Jimmy Fletcher, usually the catcher for the Realtors. Fletcher handcuffed the Kernels on four hits.

Richard Schlue and Dale Lynch shared the hurling duties for the losers.

Bruce Climer, shortstopping in place of Tommy Townsend who was catching, had two hits to his credit in leading the Realtors attack.

Giardello Decision Proves Unpopular

LOUISVILLE, Ky. (AP)—Wednesday night, in a nationally televised fight, Joey Giardello took a unanimous but unpopular decision over Chico Vejar.

The action continued on into the dressing room where Steve Ellis, who handled Vejar, announced he had been tossed out of Giardello's dressing room.

Ellis, in a verbal battle with Tony Ferrante, Giardello's manager, challenged the winner to a rematch—winner take all.

Ferrante accepted.

Then, sports promoter Bill King said "Giardello never will fight here again as long as he has anything to do with Ferrante."

Thunderbirds Upset Mains

The Thunderbirds achieved one of the biggest goals of the Minor League season Wednesday evening as they sent the Main nine down to their first setback, 7-4, behind the one-hit hurling of Gary Pearson.

Six hits were enough for the Thunderbirds to upset the Mains, but the only outfield kit among their six safeties was Cliff Puckett's single. Don Fortier led the attack on the league leaders with 2 for 2.

The Main nine, going for its tenth straight victory, was stopped cold by Pearson and company.

The lineups were: Thunderbirds—Snyder, Anders, Dunn, Cline, Fortier, Stolzenberg, Coldiron, Puckett, Pearson, Morris, Brown. Battery: Pearson and Puckett.

Main: Goldsberry, Penrod, Preston, Long, Snyder, Dillard, Tillett, Shoultz, Washburn, McMurtry, Lentz. Battery: Washburn and Shoultz.

19th Hole For Golf

It's getting to be a habit for Mrs. Willard McLean to take the honors for the Wednesday's ladies day golf at the Country Club.

She did it again this week—for the third week in a row. And this time with a 43, her best-ever score. No other member of the feminine contingent of the club has turned in as good a score in more than a year. Mrs. McLean received a special certificate from Tony Capuana, the club pro, in recognition of her achievement.

Closest to Mrs. McLean's 43, was the 53 carded by Kristen Himmelspech. Mrs. J. O. Garringer and Mrs. Wayne Shobe turned in 54 apiece and Mrs. Ralph Bray 55.

Mrs. McLean also took the low net (gross minus handicap) honors with a 34. Mrs. Robert Hagerty was second with 39 and Mrs. Bray third with 40.

Mrs. McLean had to share putting honors, however, with Mrs. Hugh Zimmerman. Each took 13 strokes on the nine greens. Mrs. Neil Helfrich was close behind with 14.

Mrs. Frank Dawson and Mrs. Carl Mason had the most 8s and the blind bogey was won by Mrs. Ray French.

Other net scores were: Mrs. C. G. Hayes 47; Mrs. William Wead 45; Mrs. Howard Harper 52; Mrs. Dwight Coffman 41; Mrs. Max Lawrence 45; Mrs. Charles Griff 44; Mrs. Marvin Roszmann 41; Mrs. Harry Townsend 49 and Mrs. Omar Schwartz 50.

Mrs. Griffiths and Mrs. Hagerty were the hostesses for the noon luncheon in the club house.

All Stars Win From Greenfield

The All Star team that will represent the Babe Ruth League here in the tournament at Phillipsburg Saturday came through with a 9 to 7 victory over the Greenfield A11 Stars at the Oakland Ave. park here Wednesday evening.

Massie, Crouse and Bush who shared the pitching chores for the Washington C. H. team, held the Greenfielders to 4 hits. The pitchers also sparked their team's attack with a couple of doubles by Massie and a triple by Crouse.

The WCH All Stars will play Phillipsburg on its home lot at 8 p. m. Saturday.

Cowboys Are Outhit But Nose Out Cubs

Although outhit by the Cubs, the Cowboys combined their seven safeties with a wobbly Cub defense to turn in a 10 to 9 victory in the second half of a Little League doubleheader at Wilson Field Wednesday evening.

Willis led the Cowboy attack with 3 for 3, including a home run in the 5-run fourth inning.

The Cubs got 11 hits, but Malloy kept them scattered, with the help of some fast fielding by his mates.

Redlegs Nosed Out By Loafers, 9-8

The Loafers edged the Redlegs Wednesday evening by a score of 9-8 in a Little League game at Armbrust Field.

In this evenly played game, Darrell Orner belted a homer for the 10ers while Franklin Wharton smacked a bases-loaded triple for the Loafers.

Each team had four hits, but the payoff was in runs.

The line - ups were: Redlegs—Gatewood, D. Marlin, Dieber, Flowers, Kelley, Orner, Streitenberger, Penwell, Blade, Kearns, Downs.

Loafers—Callender, Paul, Barr, Knisley, Wharton, Lynch, Mathews, E. Stone, Miller, Smith, Haines, Burbage, R. Stone, Kellers.

Babe Ruth All Stars To Play in Tourney

The All Stars of the two divisions of the Fayette County Babe Ruth League, National and American, will enter a Babe Ruth All Star tournament at Phillipsburg, near Dayton, Saturday at 6 and 8 p. m. respectively.

The National Division All Stars, managed by Martin O'Call and Don Graves and representing four Fayette County Babe Ruth teams, will get into action against an American Division team of the Babe Ruth Leaguers from Fairbourne, at 6 p. m.

On the National Division All Star team here will be boys from Brays, Bloomingburg, Good Hope and Girtons teams. All told, 15 boys will be picked from these four teams for the squad.

The American Division All Stars are managed by Frank Reno and Carl Wilt. The squad is made up of boys from Medics, Seals and Jeffersonville teams.

The American Division All Stars will play Phillipsburg, all Stars at 8 p. m. under the lights. This will be to a disadvantage for the American Division nine since its games are played during the day in regular season play.

Managers Wilt and Reno said there will possibly be a practice

Iowa Vet Slated To Test Porter

OMAHA (AP)—Ann Casey Johnston, 34-year - old Mason City, Iowa, veteran, gets a return shot today against Barbara Romack Porter in the feature match of the third round in the Women's Western Amateur Golf Tournament.

Ann had her first shot at the little California blonde last winter. It was a wide miss—she lost 8 and 7 in the semifinals of the St. Augustine (Fla.) tournament.

Only last week Ann said, "Barbara is the best golfer entered in the Omaha meet." But that doesn't mean the five-time Iowa champion and a semifinalist in the 1956 National Amateur couldn't come up with a surprise.

Eastern Cops Use Cars in 'Roundup'

PITTSBURGH (AP)—Using radio scout cars instead of horses, Pittsburgh policemen put on something of a rodeo Wednesday night—and they brought down a 1,400 pound steer which had sent pedestrians and motorists scurrying.

Father of 5 Pleads Innocent in Kidnaping

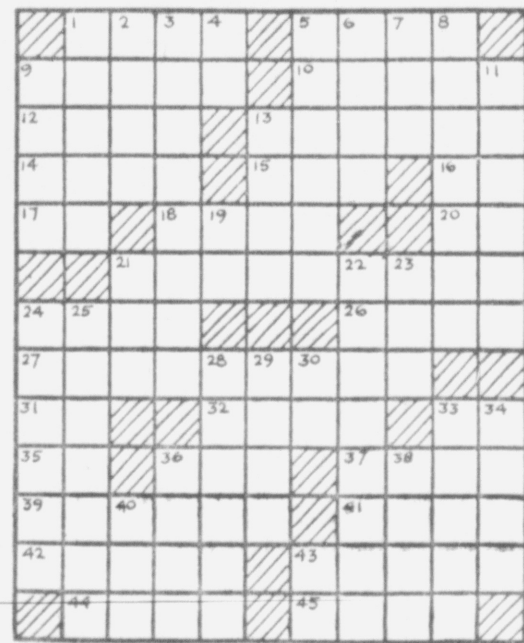

CHARDON (AP)—Accused of abducting a 17-year-old girl last week, Dean Whitman Jr., 29, Mentor, a father of five, pleaded innocent Wednesday and was held for a Geauga County grand jury under \$10,000 bond. The girl, Gertrude Stiltner of Geauga Lake, testified that Whitman was to drive her to a job interview but instead drove to Pennsylvania, locked her in a room for two nights, and released her near Geauga Park early Saturday.

Eastern Cops Use Cars in 'Roundup'

PITTSBURGH (AP)—Using radio scout cars instead of horses, Pittsburgh policemen put on something of a rodeo Wednesday night—and they brought down a 1,400 pound steer which had sent pedestrians and motorists scurrying.

The steer escaped from a truck being unloaded at the Bloomfield Packing Co. Four police cars went in pursuit.

Finally, after a chase of nearly an hour, two policemen maneuvered their autos expertly and pinned the steer against a fence. Ten shots from two revolvers killed the animal and the carcass was hauled off to the slaughterhouse.

Father of 5 Pleads Innocent in Kidnaping

CHARDON (AP)—Accused of abducting a 17-year-old girl last week, Dean Whitman Jr., 29, Mentor, a father of five, pleaded innocent Wednesday and was held for a Gauga County grand jury under \$10,000 bond. The girl, Gertrude Stiltner of Gauga Lake, testified that Whitman was to drive her to a job interview but instead drove to Pennsylvania, locked her in a room for two nights, and released her near Gauga Park early Saturday.

Four in Hospital Here After Traffic Accidents

A Pennsylvania girl and a Washington C. H. boy were injured in two separate auto accidents here Wednesday and Thursday.

State Highway Patrolman R. R. Sheline identified the girl as Lynne Merrill, 17, of Union City, Pa., who was admitted to Memorial Hospital here about 10 a. m. Thursday with possible internal, head, knee and rib injuries received in a traffic accident.

The boy, who was recovering at his home from bruises and bumps on his head, was George Thomas Lee, 6, son of Mr. and Mrs. Vincent Lee of 321 Florence St.

Sheline said the Merrill girl was injured about 9:25 a. m. when an auto in which she was a passenger ran off the CCC Highway, east, and crashed into a tree.

Driver of the auto, Mrs. Colin Mechlin of Galena, O., said she was driving west on the CCC Highway and had started to pass

a truck. The truck started to pass another vehicle at the same time and, she said, she ran off the side of the road to avoid a multi-vehicle collision.

THE LEE boy was injured when he allegedly rode his bicycle out of the Eavey Super Market parking lot and into the side of a car driven on Olive St. by Billy G. Smith, 19, of 708 Rose Ave. The boy was examined by a physician and released to his parents. Smith was not charged.

In an accident about 3:30 a. m. Thursday, Charles Edgar Massi, 20, of Patriot, O., allegedly fell asleep at the wheel and smashed into a parked auto owned by Roger Thornhill, 129 S. North St. The car was parked in front of Thornhill's home. Massi was charged with reckless operation.

Two Greenfield youths were described in "good" condition at Memorial Hospital as they recovered from injuries they sustained in an accident near the Centerfield Rd. south of Greenfield.

The boys, identified as Glen Beekman, 20, and Clarence Beekman, 13, were injured when an auto driven by the older boy allegedly crashed into a milk truck driven by Ronald Page, 24, of Hillsboro, at a dirt road intersection.

Knowland and Humphrey acted after President Eisenhower had told his news conference he couldn't imagine any circumstances that would ever induce him to use federal troops to enforce court orders.

Humphrey said Atty. Gen. Brownell "made a blunder" in tying the bill to the troop-use provisions. He said he hoped "any reference . . . to a period in American history that is a dismal and sad period" would come out.

Russell said that while Southern opponents would support the Knowland-Humphrey amendment which will furnish the first voting test of Senate sentiment, the proposal did not reach the heart of their objections to the bill.

"It does not go to the main objection of that portion of the bill, which is designed to use the full force of federal power and resources to destroy the only social order the South has ever known," he said.

There were clear indications that Knowland and Humphrey offered their amendment as only the first step in a retreat from the terms of the original bill, passed by the House and favored by Eisenhower.

move constituted an admission he was correct when he told the Senate two weeks ago that the bill would authorize "bayonet" enforcement of integration.

Clinton Trial

with enrolling Negroes in Clinton High School. Clinton is a pretty highland town, population 4,500, near Knoxville.

If convicted by the all-white jury of 10 men and two women, the 15 could get a maximum penalty of six months in jail or \$1,000 fine or both.

It is considered a landmark trial, with immense implications for future civil rights cases.

And it has been a bitter, angry courtroom battle, bristling with sharp-edged words: "Nigger lover . . . filth, you never heard such filth."

Government witnesses testified that words more jagged than these were shouted during violence in Clinton last autumn, and again Dec. 4 when the Rev. Paul Turner, a handsome young Baptist minister, was battered for escorting Negroes to the school.

Zoning Board Grants Appeals

Two Proposals Made At Called Meeting

Two appeals were granted by the Washington C. H. Zoning Board of Appeals at a called meeting in City Hall Wednesday night.

The first was by Clifford Young for permission to build a service room and heating plant at his greenhouse, 701 High St., and to construct another greenhouse adjoining the present building's west side.

Young presented a petition with the names of adjacent property owners giving their consent to the proposal and no one appeared at the hearing to object.

THE OTHER was a request by Romain Croker to use the former Beery Hatchery building, 920 N. North St., for a farmers produce exchange business leading in poultry, milk, eggs etc. He also presented to the board a consent petition signed by adjacent property owners and no one appeared at the hearing to object.

The board granted the appeal, but with the provision that no objectionable fumes, odors etc. would be permitted and that the business be conducted in a "clean and orderly manner."

At the meeting were George Pensyl, president of the board, City Manager James F. Parkinson and Councilman Ronald Cornwell. Other members of the board are Mrs. Gilbert Adams and Dr. William H. Limes.

Ohio Liquor Boss Eyes Sunday Sales

COLUMBUS (AP)—Liquor Director Robert B. Krupansky says he will take action against any state employee involved if charges that Sunday sale of liquor in several Youngstown taverns was "OK with the state" are proved true.

Krupansky conferred Wednesday with Mahoning County prosecutor Thomas A. Biel about what action to take against the three or four taverns at which Biel said his agents purchased liquor.

The prosecutor said at the conclusion of the conference that the bartenders in the taverns would be charged, probably this week, with Sunday sales in violation of state regulations.

Judge and Mrs. Case Guests of Governor

Judge and Mrs. John P. Case of Washington C. H. were among 150 former assistant attorney generals of Ohio and their wives at a reception given by Gov. and Mrs. C. William O'Neill in the governor's mansion in Columbus Wednesday afternoon. Dinner was served on the lawn. The former assistant attorney generals served during the time Gov. O'Neill was attorney general.

Among the guests also were Mr. and Mrs. Blain Sickles and Mr. and Mrs. Charles Rhoads, all of Columbus. Sickles is the son of Mr. and Mrs. Trent Sickles and Rhoads is the son of L. E. Rhoads of Washington C. H.

Mainly About People

Mr. Charles Newton Scott, 830 Washington Ave., entered Holmes Hospital, Cincinnati, Tuesday for observation and treatment.

Mrs. Audrey Kessler, Jeffers onville, entered University Hospital, Columbus, Monday for surgery.

Dr. and Mrs. Fred Woollard, 331 Rawlings St., have received word of the death of Mrs. C. S. Kirk, of Galion, a close friend. They plan to attend the funeral Saturday.

Florida Confession

(Continued from Page One)

Gardner in turn had wired the findings to the governor of Ohio. After Wednesday night's session with Wedler, Gregory said "I'm not satisfied one way or the other right now. This is too serious a case to jump to a conclusion."

The test was given in the presence of Sheriff Rodney B. Thursday and Park Street of San Antonio, the court's legal expert. Thursday, who gave Gregory and Street permission to see the prisoner, said he would have no statement until "something conclusive develops."

Thursday is also expecting a visit Friday from Dr. Stephen Sheppard, brother of the convicted man, and attorney Fred Garmone of Cleveland. Garmone said he was optimistic about the confession and that "this sounds like it may be the real thing."

The Court of Last Resort was founded nine years ago by Gardner and Henry Steeger, publisher of Argosy magazine, with the aim to prove innocent those who may have been wrongly convicted.

WEDLER SAID he was ransacking a woman's bedroom in Cleveland, hit her two or three times with an iron pipe when she stirred, and that he slugged a man with the pipe as he fled.

Cleveland authorities said Mrs. Sheppard was struck 35 times, her room was not ransacked and that Sheppard claimed he grappled with an intruder both inside and outside the house. Sheppard described the intruder as large and with dark hair. Wedler is 5 feet 11 and is a blond.

Stone Fencing Stolen

WARWICK, R. I. (AP)—Floyd Howe, who told police earlier in the week that a 100-foot section of a stone wall at his home had been stolen, made another call Wednesday night to report additional stones were gone.

Sugar Grove Youth Form Organization

An intermediate young people's group is in existence today at the Sugar Grove Methodist Church, under the leadership of the Rev. Harold M. Huges, Paul Brunner and Frank Berry.

President of the new group is Larry Wright. Jeannie Wright is vice-president. Diana Salyer, secretary and Fat Kelley, treasurer.

Devotional leader is Joella Wilson. The group, named "The Starlight Class," will meet twice monthly.

Visit by Zhukov

(Continued from Page One)

talk, then events could move fairly fast.

If Moscow seems cool toward the idea in contacts with U. S. diplomats there, or perhaps contacts between the embassy and the State Department here, then the whole idea may die quietly.

In Moscow, the Soviet agency Tass reported Eisenhower's statements in a brief dispatch notable for the lack of any tinge of comment or criticism.

A possible complication in the picture is the state of politics and personal relationships and motives within the Communist party.

Party Boss Nikita Khrushchev said in a news conference at Helsinki a little more than a month ago that he would like to visit the United States but had never been invited. Khrushchev might want to be counted in on any mission involving Zhukov and that presumably could create complications.

Eisenhower was asked several questions about Zhukov at his news conference Wednesday. He recalled that he had known the Soviet marshal well when he and Zhukov were commanders of the victorious Allied and Soviet forces at the end of World War II.

HE SAID THAT at one time "Marshal Zhukov and I operated together very closely." He characterized the Soviet military leader as a "confirmed Communist" and "an honest man."

The President refrained from endorsing any general idea of a visit by any of various Kremlin leaders here.

However, when he was asked whether an exchange of visits between Zhukov as the Soviet defense minister and U. S. Secretary of Defense Wilson "would serve a useful purpose," he replied that he thought "it might."

The Edison Hotel in Sunbury, Pa., was believed to be the first building in the world to be electrically lighted.

Another Dance Friday Night At Park Here

There is really not much to do in the way of preparation for the 50-50 dances that are held weekly on the all-purpose court at the community park on Millikan Ave., but what little needs to be done will be done, Recreation Director Fred Domenico said Thursday morning when he announced that the Wesley Weds class of Grace Methodist Church is the sponsor for the one Friday night.

This will be the fourth of the summer series and, Domenico said, if the attendance keeps growing as it has in the past, the

50 by 100 foot court will be packed with dancers.

While there has been no attempt to make a count—there is no admission charge—Domenico estimated that last Friday between 800 and 1,000 men and women and boys, and girls came and danced (or watched) and went home between 8:30 and 11:30 p. m.

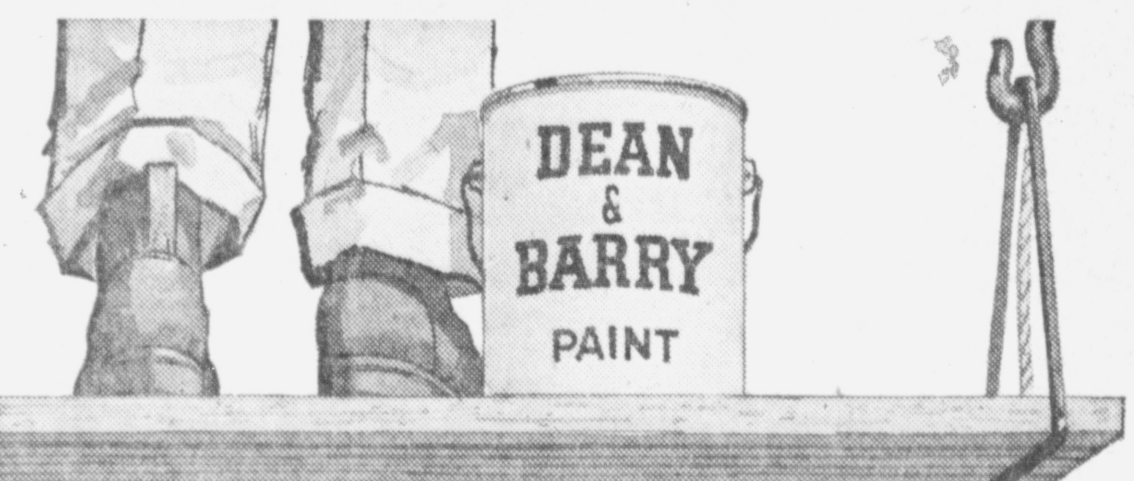

Domenico said there were people there, not only from Washington C. H., but from all over Fayette County; there were mothers and fathers and sons and daughters all having a good time together, he commented.

At one time last Friday, there were 12 sets of square dances in full swing. Clarence McDermott of Wilmington will provide the record music again this Friday.

Argentine Army Shaken

BUENOS AIRES (AP)—A sweeping, top-level Argentine army shuffle is reported in the works, aimed at putting militant anti-Peronist officers back in key commands on the eve of the crucial constituent Assembly election.

Four in Hospital Here After Traffic Accidents

A Pennsylvania girl and a Washington C. H. boy were injured in two separate auto accidents here Wednesday and Thursday.

State Highway Patrolman R. R. Sheline identified the girl as Lynne Merrill, 17, of Union City, Pa., who was admitted to Memorial Hospital here about 10 a. m. Thursday with possible internal, head, knee and rib injuries received in a traffic accident.

The boy, who was recovering at his home from bruises and bumps on his head, was George Thomas Lee, 6, son of Mr. and Mrs. Vincent Lee of 321 Florence St.

Sheline said the Merrill girl was injured about 9:25 a. m. when an auto in which she was a passenger ran off the CCC Highway, east, and crashed into a tree.

Driver of the auto, Mrs. Colin Mechlin of Galena, O., said she was driving west on the CCC Highway and had started to pass

Civil Rights Bill

(Continued from Page One)

move constituted an admission he was correct when he told the Senate two weeks ago that the House bill would authorize "bayonet" enforcement of integration.

Knowland and Humphrey acted after President Eisenhower had told his news conference he couldn't imagine any circumstances that would ever induce him to use federal troops to enforce court orders.

Humphrey said Atty. Gen. Brownell "made a blunder" in tying the bill to the troop-use provisions. He said he hoped "any reference . . . to a period in American history that is a dismal and sad period" would come out.

Russell said that while Southern opponents would support the Knowland-Humphrey amendment which will furnish the first voting test of Senate sentiment, the proposal did not reach the heart of their objections to the bill.

"It does not go to the main objection of that portion of the bill, which is designed to use the full force of federal power and resources to destroy the only social order the South has ever known," he said.

There were clear indications that Knowland and Humphrey offered their amendment as only the first step in a retreat from the terms of the original bill, passed by the House and favored by Eisenhower.

Clinton Trial

with enrolling Negroes in Clinton High School. Clinton is a pretty highland town, population 4,500, near Knoxville.

If convicted by the all-white jury of 10 men and two women, the 15 could get a maximum penalty of six months in jail or \$1,000 fine or both.

It is considered a landmark trial, with immense implications for future civil rights cases.

And it has been a bitter, angry courtroom battle, bristling with sharp-edged words: "Nigger lover . . . filth, you never heard such filth."

Government witnesses testified that words more jagged than these were shouted during violence in Clinton last autumn, and again Dec. 4 when the Rev. Paul Turner, a handsome young Baptist minister, was battered for escorting Negroes to the school.

Zoning Board Grants Appeals

Two Proposals Made At Called Meeting

Two appeals were granted by the Washington C. H. Zoning Board of Appeals at a called meeting in City Hall Wednesday night.

The first was by Clifford Young for permission to build a service room and heating plant at his greenhouse, 701 High St., and to construct another greenhouse adjoining the present building's west side.

Young presented a petition with the names of adjacent property owners giving their consent to the proposal and no one appeared at the hearing to object.

THE OTHER was a request by Romain Croker to use the former Beery Hatchery building, 920 N. North St., for a farmers produce exchange business dealing in poultry, milk, eggs etc. He also presented to the board a consent petition signed by adjacent property owners and no one appeared at the hearing to object.

The board granted the appeal, but with the provision that no objectionable fumes, odors etc. would be permitted and that the business be conducted in a "clean and orderly manner."

At the meeting were George Pensyl, president of the board, City Manager James F. Parkinson and Councilman Ronald Cornwell. Other members of the board are Mrs. Gilbert Adams and Dr. William H. Limes.

Ohio Liquor Boss Eyes Sunday Sales

COLUMBUS (AP)—Liquor Director Robert B. Krupansky says he will take action against any state employee involved if charges that Sunday sale of liquor in several Youngstown taverns was "OK with the state" are proved true.

Krupansky conferred Wednesday with Mahoning County prosecutor Thomas A. Biel about what action to take against the three or four taverns at which Biel said his agents purchased liquor.

The prosecutor said at the conclusion of the conference that the bartenders in the taverns would be charged, probably this week, with Sunday sales in violation of state regulations.

Judge and Mrs. Case Guests of Governor

Judge and Mrs. John P. Case of Washington C. H. were among 150 former assistant attorney generals of Ohio and their wives at a reception given by Gov. and Mrs. C. William O'Neill in the governor's mansion in Columbus Wednesday afternoon. Dinner was served on the lawn. The former assistant attorney generals served during the time Gov. O'Neill was attorney general.

Among the guests also were Mr. and Mrs. Blain Sickles and Mr. and Mrs. Charles Rhoads, all of Columbus. Sickles is the son of Mr. and Mrs. Trent Sickles and Rhoads is the son of L. E. Rhoads of Washington C. H.

Florida Confession

(Continued from Page One)

Gardner in turn had wired the findings to the governor of Ohio. After Wednesday night's session with Wedler, Gregory said "I'm not satisfied one way or the other right now. This is too serious a case to jump to a conclusion."

The test was given in the presence of Sheriff Rodney B. Thursday and Park Street of San Antonio, the court's legal expert. Thursday, who gave Gregory and Street permission to see the prisoner, said he would have no statement until "something conclusive develops."

Thursday is also expecting a visit Friday from Dr. Stephen Sheppard, brother of the convicted man, and attorney Fred Garmon of Cleveland. Garmon said he was optimistic about the confession and that "this sounds like it may be the real thing."

The Court of Last Resort was founded nine years ago by Gardner and Henry Steeger, publisher of Argosy magazine, with the aim to prove innocent those may have been wrongly convicted.

WEDLER SAID he was ransacking a woman's bedroom in Cleveland, hit her two or three times with an iron pipe when she stirred, and that he slugged a man with the pipe as he fled.

Cleveland authorities said Mrs. Sheppard was struck 35 times, her room was not ransacked and that Sheppard claimed he grappled with an intruder both inside and outside the house. Sheppard described the intruder as large and with dark hair. Wedler is 5 feet 11 and is a blond.

Stone Fencing Stolen

WARWICK, R. I. (AP)—Floyd Howe, who told police earlier in the week that a 100-foot section of a stone wall at his home had been stolen, made another call Wednesday night to report additional stones were gone.

Sugar Grove Youth Form Organization

An intermediate young people's group is in existence today at the Sugar Grove Methodist Church, under the leadership of the Rev. Harold M. Huges, Paul Brunner and Frank Berry.

Devotional leader is Joella Wilson. The group, named "The Starlight Class," will meet twice monthly.

Visit by Zhukov

(Continued from Page One)

talk, then events could move fairly fast.

If Moscow seems cool toward the idea in contacts with U. S. diplomats there, or perhaps contacts between the embassy and the State Department here, then the whole idea may die quietly.

In Moscow, the Soviet agency Tass reported, Eisenhower's statements in a brief dispatch notable for the lack of any tinge of comment or criticism.

A possible complication in the picture is the state of politics and personal relationships and motives within the Communist party Presidium.

Party Boss Nikita Khrushchev said in a news conference at Helsinki a little more than a month ago that he would like to visit the United States but had never been invited. Khrushchev might want to be counted in on any mission involving Zhukov and that presumably could create complications.

Eisenhower was asked several questions about Zhukov at his news conference Wednesday. He recalled that he had known the Soviet marshal well when he and Zhukov were commanders of the victorious Allied and Soviet forces at the end of World War II.

HE SAID THAT at one time "Marshal Zhukov and I operated together very closely." He characterized the Soviet military leader as a "confirmed Communist" and "an honest man."

The President refrained from endorsing any general idea of a visit by any of various Kremlin leaders here.

However, when he was asked whether an exchange of visits between Zhukov as the Soviet defense minister and U. S. Secretary of Defense Wilson "would serve a useful purpose," he replied that he thought "it might."

The Edison Hotel in Sunbury, Pa., was believed to be the first building in the world to be electrically lighted.
